Comment on the Danish FSA's statement regarding its inspection of Danske Bank (non-performing exposures, etc.)

Danske Bank takes note of the Danish FSA's statement. We are in the process of changing our practice to comply with the transitional provisions in the regulation and we expect that it will be completed in June 2023. In the intervening period, we will continue to ensure that we have sufficient capital pursuant to the regulation and that all capital requirements are met by continuing our conservative approach to our capital deductions.

The Danish FSA's statement is available at danskebank.com/investor-relations/regulation/the-danish-fsa.
