Forward '28 - Our commitments

Growth in focus segments

- Leading wholesale and business bank in the Nordics
- Leading retail bank in Denmark and Finland
- Grow share of wallet and market share with most attractive segments

Disciplined capital return & cost

- Capital allocation towards most profitable areas that meet our hurdle rates
- Drive productivity and cost takeouts
- Normalise FCRP and remediation cost

Strong capital generation & low risk

- Strong capital generation with ability to distribute consistently over time
- Maintain low and stable risk levels through the cycle

Strategic KPIs for '26

| | | |
|--------------------|--|-------|
| Personal Customers | Number of meetings per advisor (Index: 2023 = 100) | 163 |
| | Net new customer in growth segments* | 40k |
| | Customer satisfaction with Mobile Bank | 8.5 |
| Business Customers | Annual growth in Daily Banking fees in BC | 5% |
| | Credit cases with automatic decisioning | 50% |
| | Increase in customers highly satisfied with advisory** | +15% |
| LC&I | Number of new customers outside Denmark** | 40 |
| | Annual growth in Daily Banking fees in BC & LC&I | 5% |
| | Market share in Capital Markets advisory fees | 10.5% |

Financial targets for '26

13%

Return on Equity

>16% CET1

~45% Cost to Income

Capital distribution

- Dividend potential from 2023-26 of above DKK 50 bn
- Ambition for further distribution - subject to capital position and market conditions

Increased investments

- Increase yearly digital and tech investments by DKK 1 bn

* Increase vs. 2023 baseline. ** Increase vs. 2022 baseline.

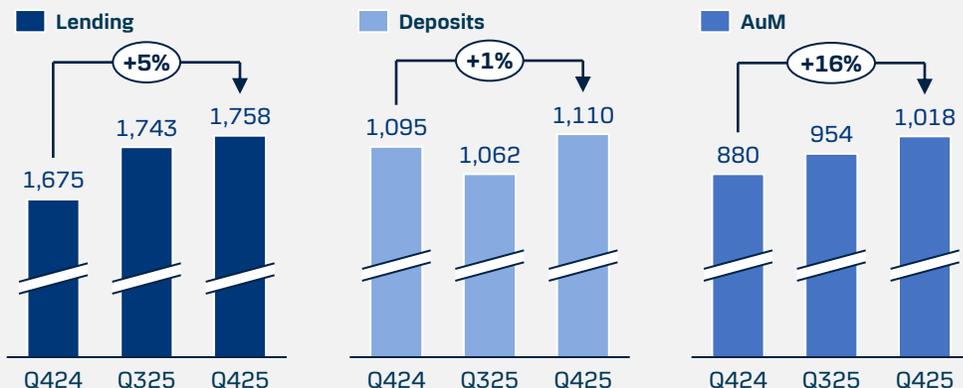

Highlights: Financial performance underpinned by record-high core banking income, driven by strategy execution and continued business momentum

Commercial highlights

- Beneficial operating environment and macro backdrop in the Nordics underpin financial performance and net profit outlook for 2026
- Solid financial performance with net profit of DKK 23.0bn reflects record-high core income, disciplined cost management and sustained strong credit quality
- Commercial momentum driven by growth in lending volumes from expanded corporate customer base and growing market shares* across the Nordics, as well as higher AuM and investment activities
- Launch of new SBB programme of DKK 4.5bn along with 60% ordinary dividend and ~20% extraordinary dividend, taking total DPS to DKK 22.7** and total 2025 distribution to 100%

Group lending, deposits and AuM (DKK bn)

Net profit 2025
DKK 23.0bn - ROE 13.3%

F'28 target for 2026: 13%

Commercial momentum

Increase in business volumes from strong corporate activity

Cost/income 45.5%

Reflecting continued cost discipline

F'28 target for 2026 : ~45%

Strong credit quality

Loan loss ratio of 2bps

Prudent macro scenarios and PMA buffer ~30bps

Solid capital position & 100% distribution

CET1 capital ratio of 17.6% fully phased-in (+280bps above requirement)

2026 Net profit outlook

DKK 22 - 24bn

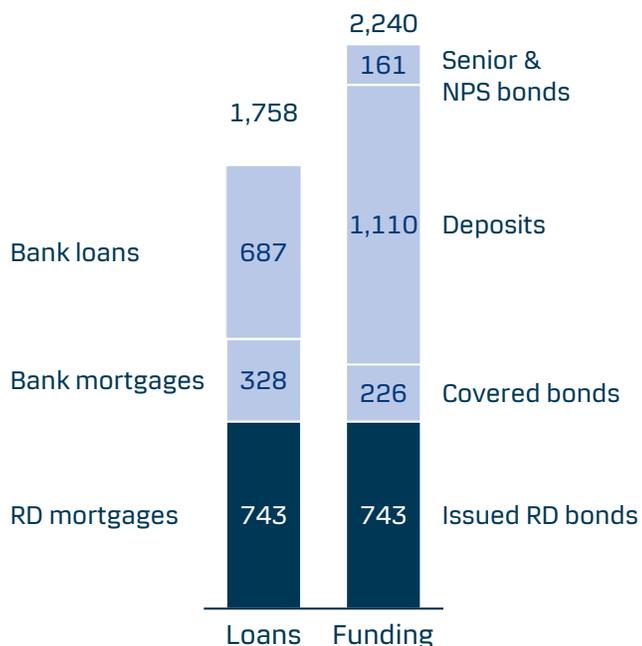

*Non-financial corporates, Source: Central bank lending market shares. ** Subject to AGM decision.

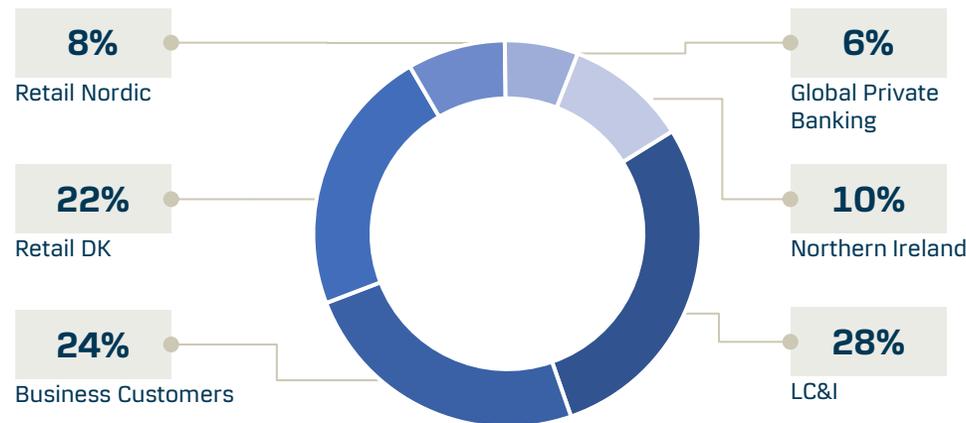

Danske Bank's strong and liquid balance sheet underpins our resilient business model

- Danske Bank has a sound funding structure and remains very well capitalised with a prudent CET1 capital buffer to the current regulatory requirements. Further, our liquidity is underpinned by a significant cash position and a liquidity coverage ratio (LCR) of 156%, well above minimum requirements
- Diversified and solid deposit mix that includes a retail base where the majority is covered by the Nordic guarantee schemes. Fully-funded pass-through mortgage structure in Denmark provides a structural deposit surplus
- Long-Term wholesale funding: For 2025, we issued around DKK 91 billion. For 2026, our funding plan is 90 -110bn

Sound funding structure (DKK bn)

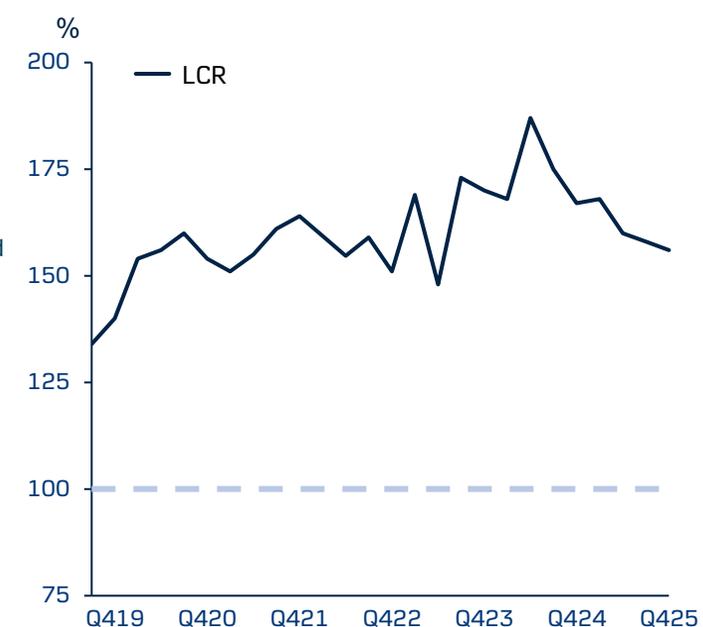

Diversified and stable deposit base

| | 2022 | 2023 | 2024 | 2025 |
|---|-------|-------|-------|-------|
| Total bank deposits (DKK bn) | 1,172 | 1,140 | 1,095 | 1,110 |
| of which Stable deposits* | 388 | 373 | 363 | 354 |
| of which Operational deposits* | 319 | 307 | 299 | 294 |
| Stable & Operational, % of bank deposits | 60% | 60% | 60% | 58% |

Strong liquidity position

* Based on regulatory definition. E.g., Stable deposits include fully insured retail deposits to customers with full relationship at Danske Bank. Operational deposits is from Corporate depositors as part of clearing, custody and cash management business

Our **strategic approach to sustainability** enables us to capture commercial opportunities, while also managing risks and impacts

Our strategic ambition

To be a leading Nordic bank in supporting the sustainability transition of customers, companies we invest in and Nordic societies

Our strategic focus areas

Create lasting value for our customers, business and society

**Support our customers
in their transition**

**Ensure a robust and
resilient bank**

**Manage our
societal impact**

Our prioritised sustainability agendas

Climate change

*Supporting the transition
towards Net Zero*

Nature & biodiversity

*Supporting the protection of
nature and ecosystems*

Human rights & social impact

*Supporting the protection of
human rights*

Driving sustainability in our core business areas

**Lending
& financing**

**Asset
management**

**Life insurance
& pension**

**Operations &
supply chain**

Financial highlights

Solid financial performance driven by income trajectory and cost management

Highlights

- FY/FY: Total income supported by resilient NII and record fee income. Trading income reflects higher customer activity while insurance business was affected by one-offs
- Q4/Q3: NII up 2% excluding DKK 0.2bn tax-related contribution. Significant fee income growth from record-high performance fee income and sustained uplift in daily banking fee income. Trading income impacted by seasonality and lower fixed income activity. Net income from insurance business impacted by net DKK -0.2bn following model recalibration
- Continued cost management and structural takeouts related to normalisation of financial crime plan and lower resolution fund fee. Q/Q seasonality related to performance compensation and severance
- Strong credit quality and well-provisioned portfolio leading to PMA reversals and sustained low level of impairments

Income statement (DKK m)

| | 2025 | 2024 | Index | Q4 25 | Q3 25 | Index |
|---------------------------------------|---------------|---------------|------------|---------------|---------------|------------|

| Loan impairment charges | 294 | -543 | - | 35 | -8 | - |
| Profit before tax | 30,699 | 31,212 | 98 | 8,334 | 7,384 | 113 |
| Tax | 7,662 | 7,583 | 101 | 2,028 | 1,864 | 109 |
| Net profit | 23,037 | 23,629 | 97 | 6,307 | 5,520 | 114 |

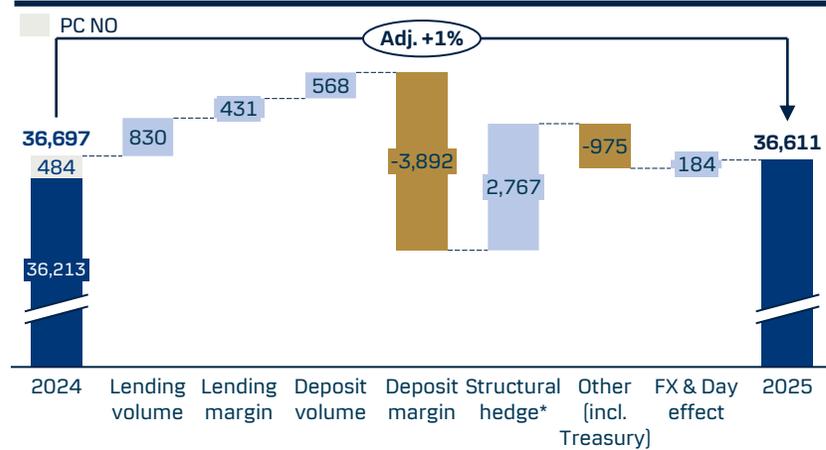

NII: Resilient NII underpinned by continued growth in volumes and stability derived from structural hedge

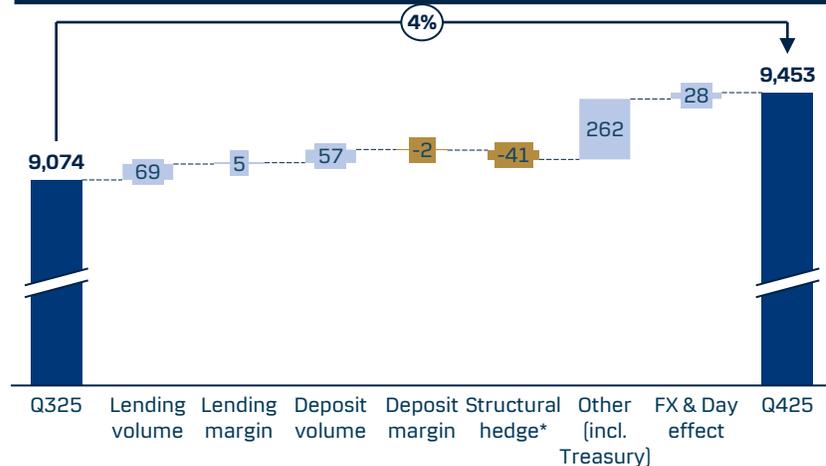

Highlights

- NII stability Y/Y from growing business volumes and structural hedge contribution offsetting impact of lower Central Bank rates and PC Norway income
- Steadily improving trend throughout 2025 highlights positive trajectory as growing lending and deposit volumes along with hedge more than mitigated impact of H1 rate cuts on deposit margins and yield on shareholders' equity
- The bond structural hedge notional grew to circa DKK 180 bn as at Q4 2025 (Q3: DKK ~170bn)
- Q/Q highlights resilient trajectory of NII and was further supported by DKK 0.2bn tax-related benefit as well as other business-related interest items
- NII sensitivity unchanged:
Year 1: DKK +450m/-650m (per 25bps move up/down). Additional impact in year 2 and 3 of DKK (+/-)300m and DKK (+/-)100m, respectively, all else equal

NII 2025 vs 2024 (DKK m)

NII Q425 vs Q325 (DKK m)

Deposit margin development** (%)

Lending margin development** (%)

* Structural hedge income includes benefits from our bond portfolio and fixed rate assets, net of the development in the yield on shareholders' equity at Danske Bank A/S.

**Margin development trends are the annualised net interest income on lending/deposits as a percentage of average lending/deposits for the period. They include effects from FX, volumes and other interest-related items, incl. structural hedge

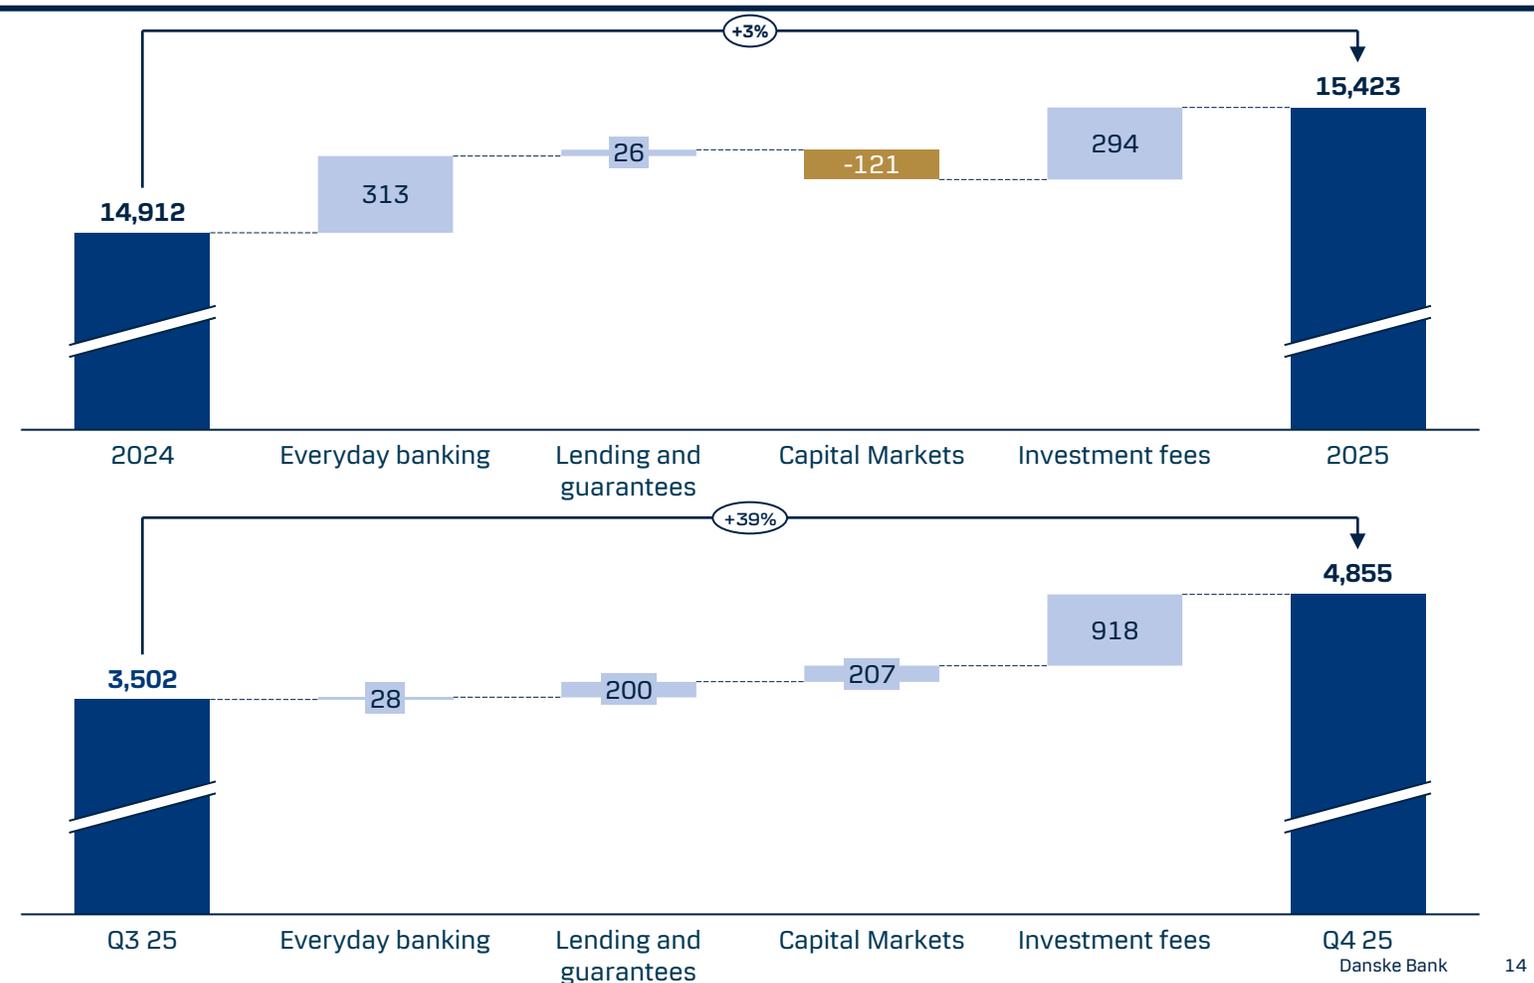

Fee income: Record fee income driven by strong performance in Asset Management and corporate activity

Highlights

- Everyday banking fees (e.g. transfers, accounts)**
 - Sustained high customer activity and good demand for our cash management solutions and house bank solutions for corporate customers
- Lending and guarantee fees**
 - Continued solid corporate credit demand both Q/Q and Y/Y, as well as solid refinancing activity for adjustable-rate mortgages in Q4 at Realkredit Danmark
- Capital markets fees**
 - Primary markets volatility through the year partially offset by solid DCM activity; muted ECM but rebound in Q4 driven by Ørsted's rights issue and a pick-up in the Swedish IPO market
- Investment fees**
 - Y/Y: All time high AuM (DKK 1.018bn, +16% Y/Y) driven by growing market share for Danske Invest, strong inflow across segments and improved market conditions
 - Q/Q: Record high performance fees (DKK 909m in Q4, +40% relative to Q4-24) primarily driven by investment performance

Net fee income (DKK m)

Trading income: Slightly lower customer activity and impact of valuation adjustments

Highlights

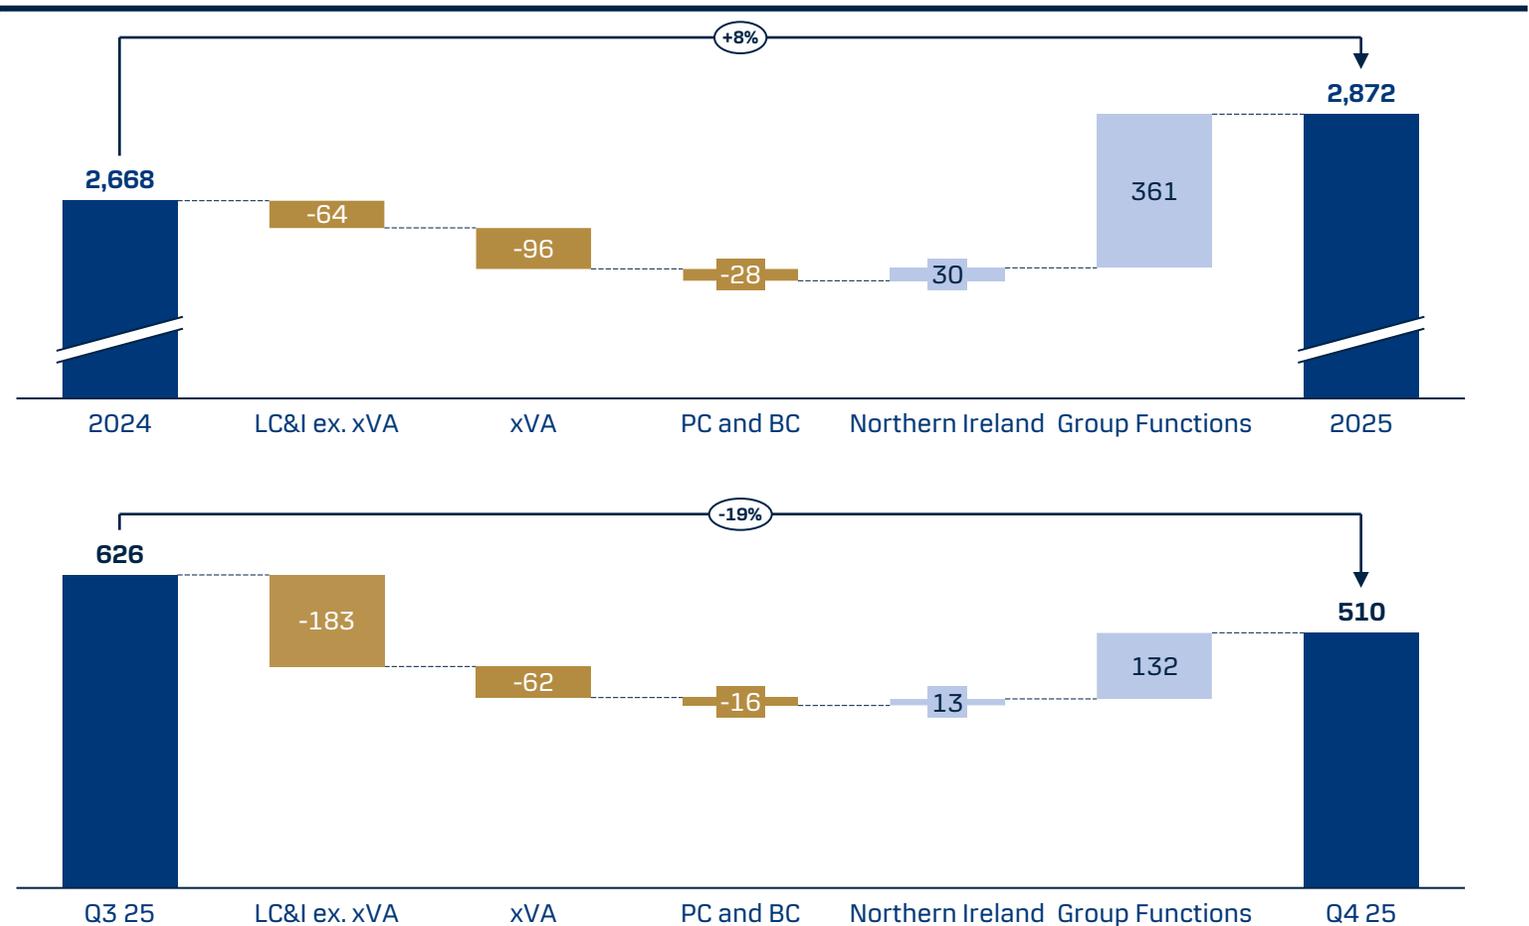

LC&I

- Y/Y: Stable development as robust customer activity in Fixed Income & Currencies business helped to partially offset lower activity in Equities Sales and Trading
- Q/Q: Seasonality and lower activity in secondary fixed income markets affected the quarter

Group Functions

- Increase primarily driven by value adjustments in Treasury related to cross-currency swaps and market value adjustments related to interest rate risk management

Net trading income (DKK m)

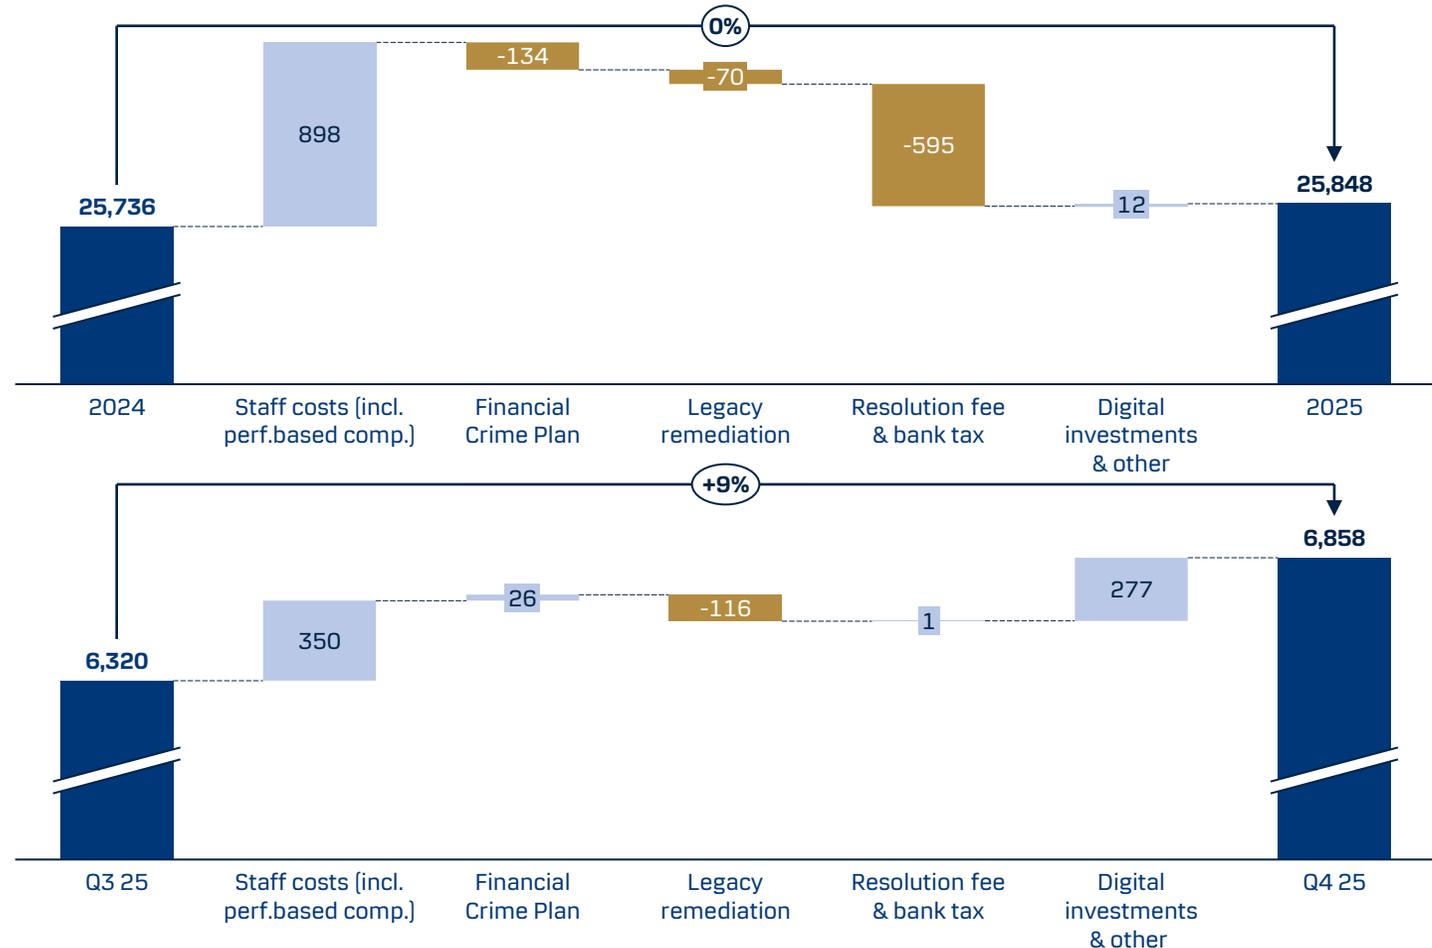

Expenses: 2025 costs in line with full-year guidance

Highlights

- FY/FY: Flat cost development as higher staff costs, performance-based compensation and investments were offset by lower FCRP costs, lower remediation costs and lower resolution fund payments as planned
- Q/Q: As guided, costs were higher due to year-end seasonality and investments
- Q/Q: Group FTE's down by ~200 as we continue to simplify and improve efficiency, which also drove higher severance costs in the quarter. Cost/income ratio for 2025 stands at 45.5%
- FY2026 cost outlook in the range of DKK 26 - 26.5 billion and C/I ratio of ~45%

Expenses (DKK m)

Financial outlook for 2026

Income

We expect **total income** to be around DKK 58 billion driven by growing core banking income and our continued efforts to drive commercial momentum and growth in line with our financial targets for 2026

Income from trading and insurance activities remains subject to financial market conditions

Expenses

We expect **operating expenses** in the range of DKK 26 – 26.5 billion in 2026, reflecting our growth ambitions and continued investment spend alongside a sustained focus on cost management

Cost/Income ratio expected to be ~45% in line with target for 2026

Impairments

Loan impairment charges expected to be around DKK 1 billion, below our normalized loan loss ratio of ~8bps, as a result of continued strong credit quality

Net profit *

We expect **net profit** to be in the range of DKK 22 – 24 billion, reflecting a Return on Equity above our 2026 ambition of 13%

Business & Product Units

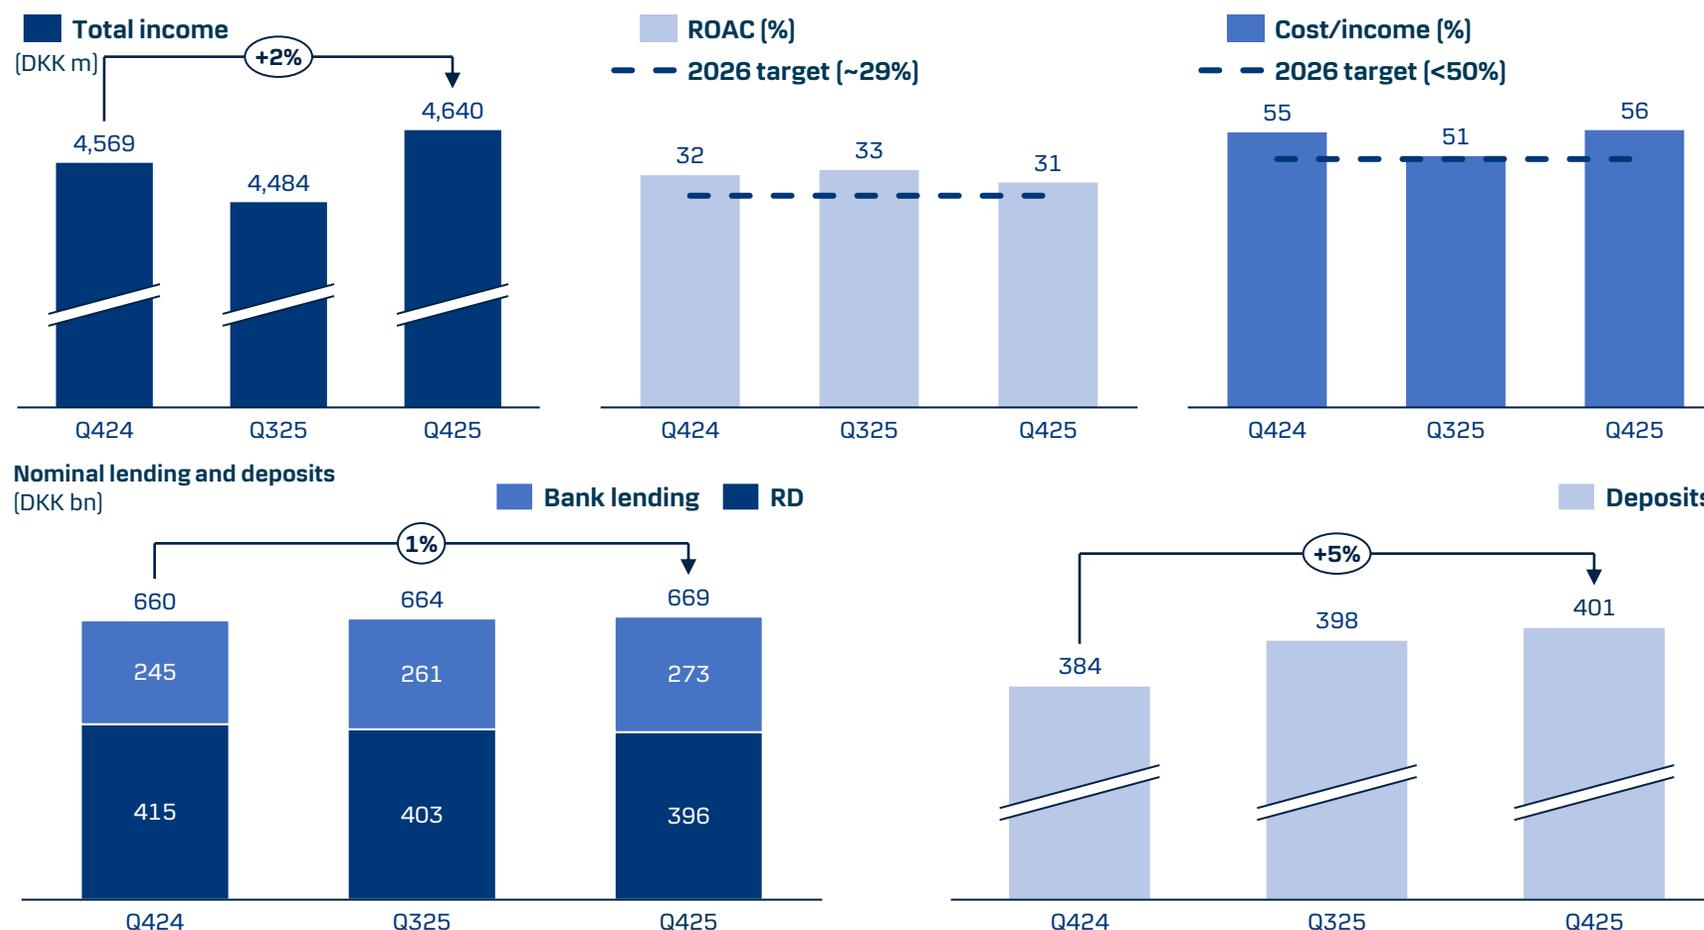

Personal Customers: Financial performance supported by improving volumes and good customer activity

Highlights

- Q425/Q424 total income increase of 2% as NII stability was supplemented by higher fee income. ROAC remained above target as seasonally high costs were mitigated by sustained low impairments
- Q425/Q325 income driven by higher NII from increasing bank lending and strong deposits. Fee income increased 14%, driven by Q4 refinancing activity and investment fee income
- Growing volumes across Nordic countries and within private banking, incl. growth in DK bank home lending exceeding decrease in Realkredit Danmark lending volumes
- Sustained momentum in Private Banking, with continued inflow of customers and record-high AuM underpinning market share gains

Financial performance KPIs

Business Customers: Sustained commercial momentum supported by expanding customer base and strong growth in business volumes

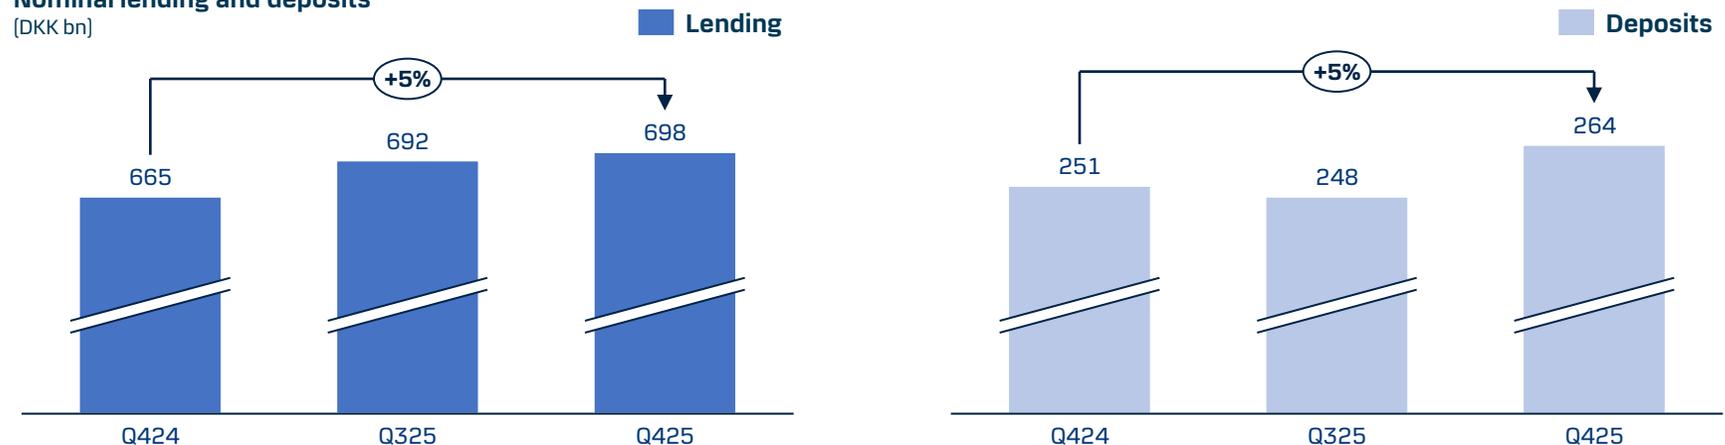

Highlights

- Q425/Q424 total income up 8%, driven by 10% higher NII and 5% higher fee income, underpinning profitability and a C/I ratio in line with target. ROAC further supported by reversals of impairments
- Q425/Q325 total income up 5%, with NII growing 3% on the back of higher volumes. Fee income 11% higher driven by financing activity and everyday banking fee income
- Total lending up 5% Y/Y, as improved credit demand and a growing customer base led to increasing market shares across all Nordic countries
- Deposits increased 5% and remain elevated, driven by advisory banking customer segment and cash management volumes, particularly in Sweden and Denmark

Financial performance KPIs

Nominal lending and deposits (DKK bn)

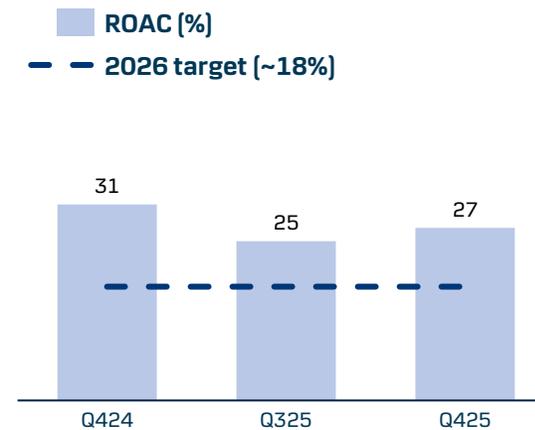

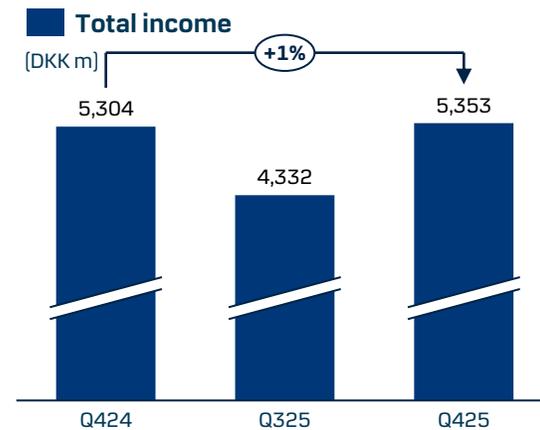

Large Corporates & Institutions: Record-high total income driven by corporate lending activity and fees from Asset Management

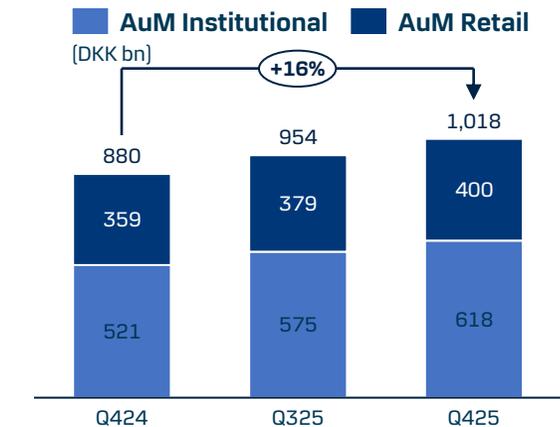

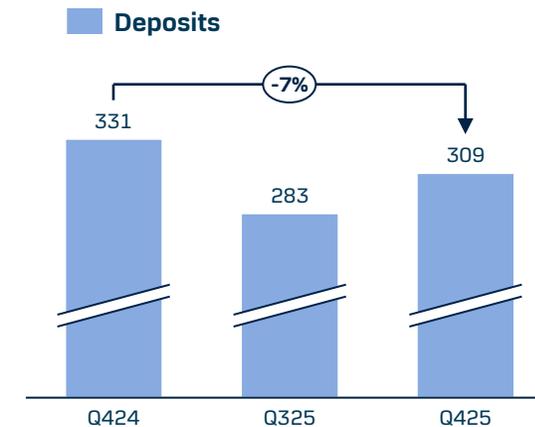

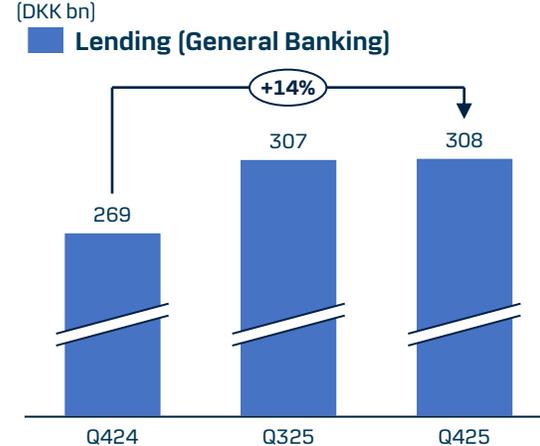

Highlights

- Total income up 24% Q/Q, driven by NII from strong lending growth and very strong fee income driven by everyday banking fees and record performance fee income in Asset Management
- ROAC was impacted by lower profit before tax due to higher loan impairments
- Cost/income ratio stable and remains better than target
- Sustained strong lending growth (+14% Y/Y), driven by corporate customers in Sweden and Denmark. Fluctuations in deposits mostly related to corporate M&A activity
- Strong performance in Asset Management and improved market share for Danske Invest
- AuM up (+16% Y/Y), leading to record-high AuM driven by strong net sales and strong investment performance

Financial performance KPIs

Nominal lending and deposits

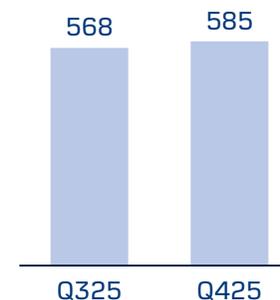

Business units: Strong business momentum in Northern Ireland; continued focus to improve Health and Accident business at Danica

Northern Ireland

- In Northern Ireland, we have grown our customer numbers and market share, welcoming over 14,000 new personal current account customers. In business and corporate banking, we welcomed over 1,700 new customers
- Profit before tax increased to DKK 2,271 million, 13% higher than in 2024, driven by growth in residential mortgage and corporate banking alongside cost control and strong credit quality
- The fourth quarter of 2025 saw profit before tax of DKK 666 million compared to DKK 495 million in Q32025

Profit before imp. (DKK m)

Lending (index)

Danica

- Net income at Danica decreased to DKK 260 million from DKK 382 million in Q3 2025 due to lower insurance service result, primarily the result of the health and accident business
- The result of the health and accident business was a loss of DKK 591 million in the fourth quarter of 2025 compared to a loss of DKK 71m in Q32025
- 2025 included a one-off loss of a net DKK 200 million resulting from changes to data and models relating to the health and accident business
- The net financial result increased in the fourth quarter of 2025 and amounted to DKK 679 million compared to DKK 125 in Q32025, due to a more positive development in the investment results

Result Q325 vs Q425 (DKK m)

Net income

Gross Premiums

Realkredit Danmark portfolio overview: Continued strong credit quality

Highlights

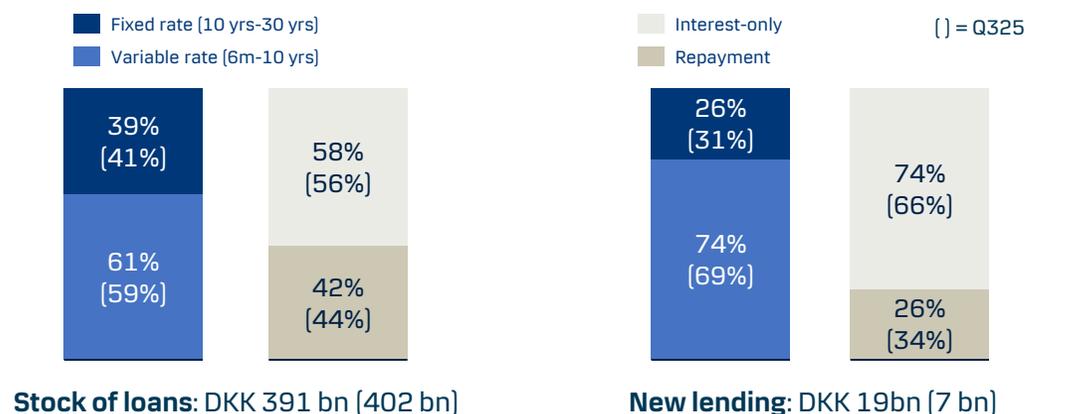

Portfolio facts, Realkredit Danmark, Q425

- Approx. 274,000 loans (residential and commercial)
- Average LTV ratio of 49% (46% for retail, 52% for commercial)
- We comply with all five requirements of the supervisory diamond for Danish mortgage credit institutions
- 557 loans in 3- and 6-month arrears (Q325: 600)
- 8 repossessed properties (Q325: 8)
- Around 1% of the loan portfolio has an LTV above 80%
- DKK 4bn of the loan portfolio is covered by government guarantee

LTV ratio limit at origination (legal requirement)

- Residential: 80%
- Commercial: 60%

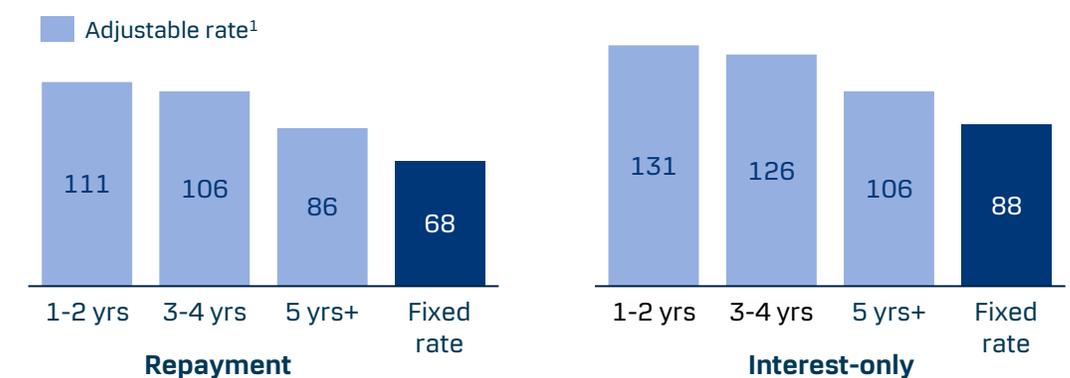

Retail loans, Realkredit Danmark, Q425 (%)

Total RD loan portfolio of FlexLån® F1-F4

Retail mortgage margins, LTV of 80%, owner-occupied (bps)

1. In addition, we charge 30 bp of the bond price for refinancing of 1- and 2-year floaters and 20 bp for floaters of 3 or more years (booked as net fee income)

Credit quality & Impairments

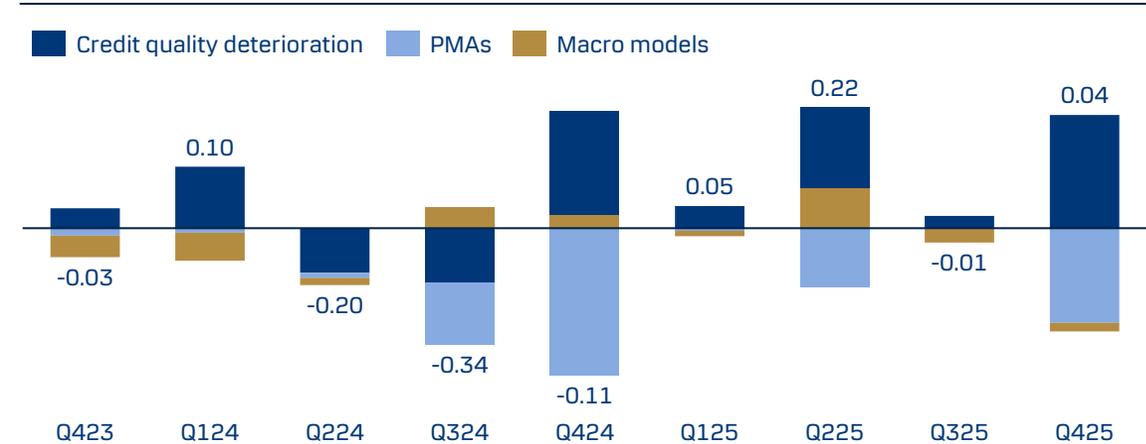

Asset quality: Strong credit quality drives below-cycle level of impairments; prudent macro scenarios and PMA reversals

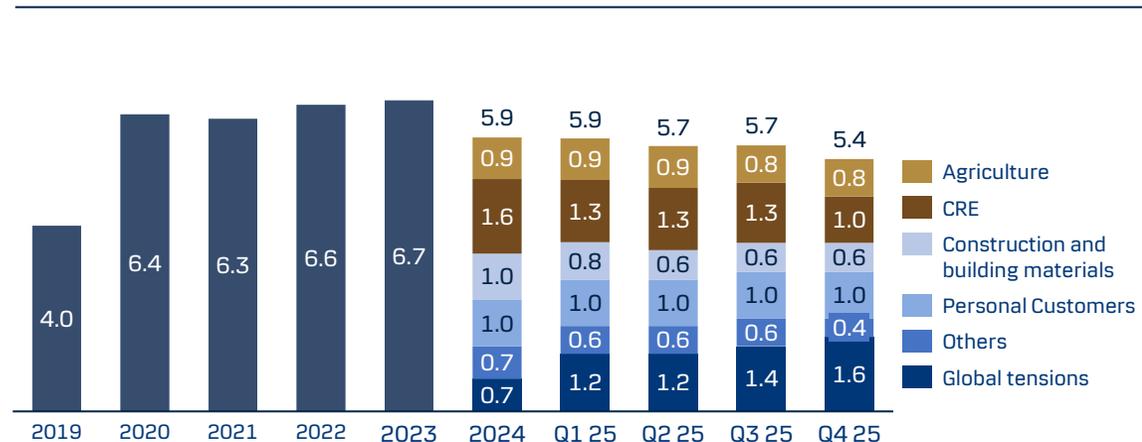

Highlights

- Strong credit quality and few single-name impairments offset by workout cases and releases of PMAs led to a DKK 35m impairment charge in Q4. Full-year impairments of DKK 294m highlight below-cycle loan loss level of 2 bps
- Macroeconomic charges remain modest. Scenarios continue to reflect ongoing tariff and trade tensions to capture a severe and prolonged adverse impact
- PMA buffer led to net DKK 0.3bn in releases primarily driven by CRE while the buffer related to global tension was further bolstered, underpinning our prudent approach

Impairment charges by category (DKK bn)

Post-model adjustments (DKK bn)

Allowance account by stages (DKK bn)

IFRS9 macro scenarios: Prudently capturing a severe downside scenario

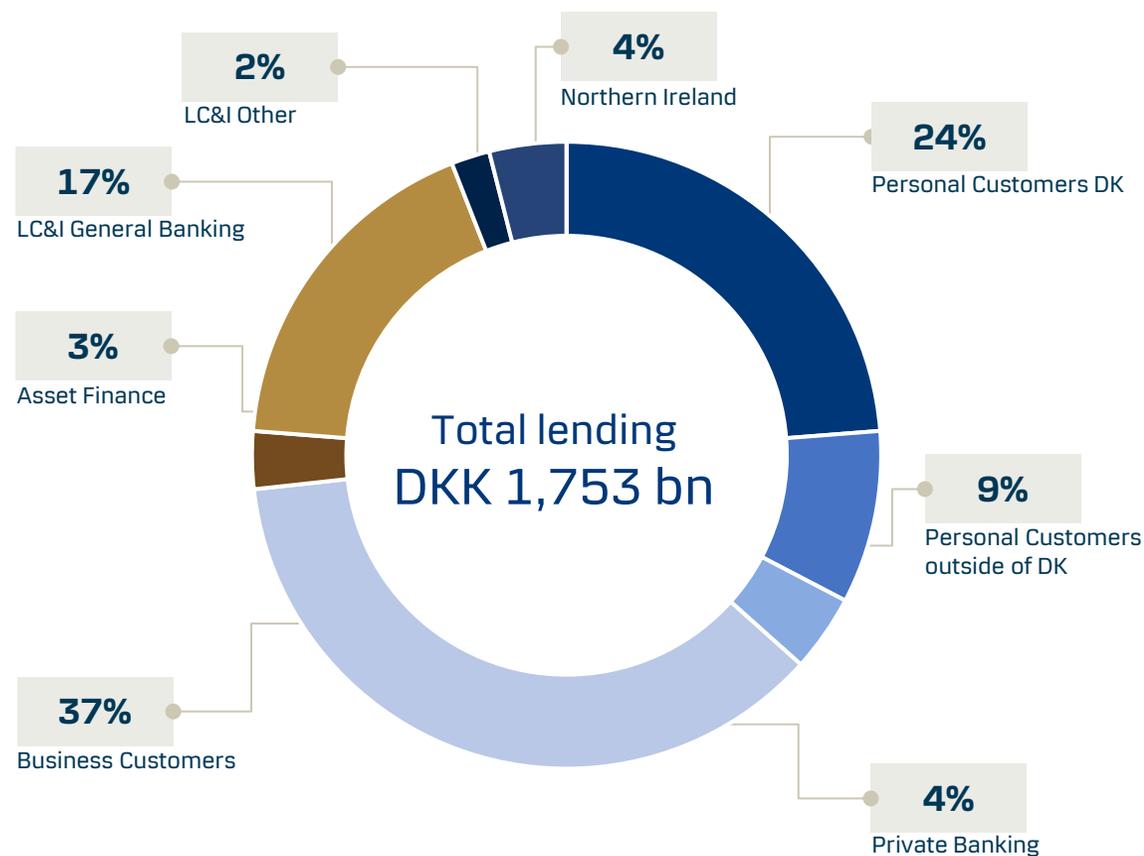

Q4 25 scenarios

| | Base (50%) | | | | Upside (25%) | | | | Downside (5%) | | | | Severe downside (20%) | | | |

Strong regional footprint and diversified balance sheet

Lending by segment¹ Q4 25 (%)

Credit exposure by industry Q4 25 (% , rounded)

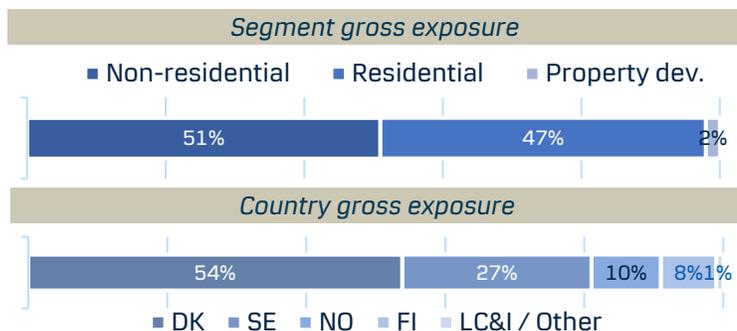

¹Total lending before loan impairment charges, excl. repos.

Overall strong credit quality in portfolios exposed to macro cyclicality

CRE: Well diversified & prudently managed portfolio

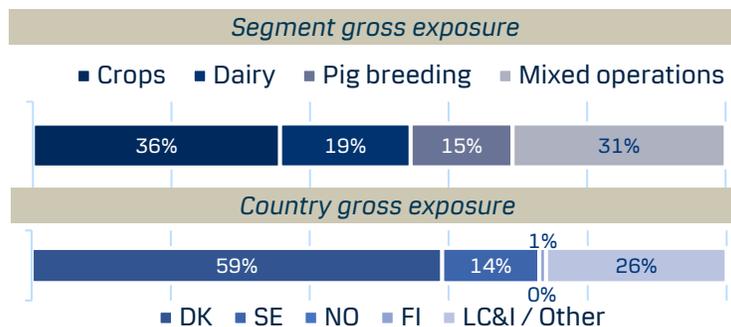

DKK 321 bn in credit exposure and ECL ~1%

- Conservative lending growth (around -3% 5Y-CAGR in non-resi.) given caps and concentration limits within sub-segments and markets, as well as for single-names, limiting downside risks
- Due to our conservative approach, our SE exposure has remained stable, despite market growth, and book is well-diversified with lower concentration risk over the past years
- The Group's credit underwriting standards maintain strong focus on cash flows, interest rate sensitivity, LTV and the ability to withstand significant stress
- PMA of DKK 0.9 bn to cover uncertainties regarding the effect of rapid interest rate increases and macroeconomic situation

Agriculture: Well-provisioned agriculture book

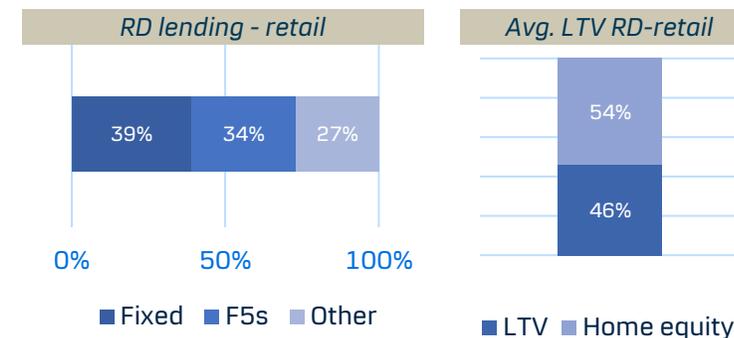

DKK 58bn in gross exposure of which 54% RD

- The credit quality of the portfolio has improved over the past few years, recovering from legacy exposures from the financial crisis
- The current credit risk appetite takes into account the volatility of the sector and remains in place. Furthermore, the Group maintains strong underwriting standards on LTV, interest-only loans and interest rate sensitivity
- PMA of DKK 0.8 bn have been made for potential future portfolio deterioration including uncertainties not visible in the portfolio such as diseases and implications from green transition

Housing: Low leverage, strong household finances

Around 72% of RD lending are 5-30yr fixed-rate

- Avg. LTV remains at prudent level and has been generally supported over the past years by the trend in house prices along with the call feature of DK mortgage loans
- Affordability measures in our approval process remain prudent, and debt-to-income (DTI) levels remain stable overall
- Portfolio uncertainty risks are being mitigated by continuous monitoring and review of underwriting standards covering interest rate-related stress of affordability and other measures
- Low near-term refinancing risk on RD flex loans
- Total PMAs related to personal customers of DKK 0.9 bn

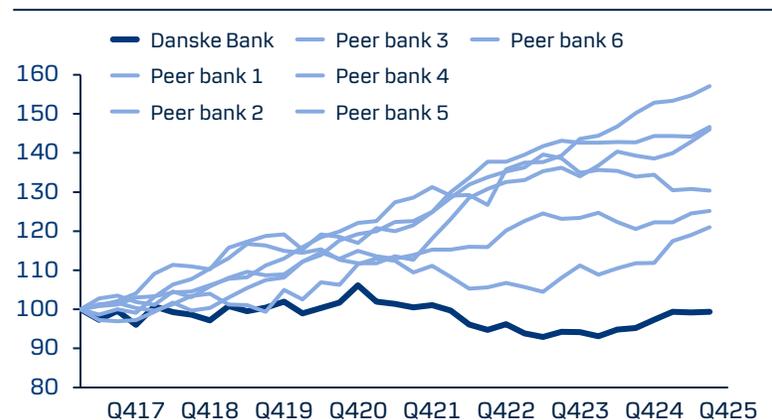

Commercial property: Prudently managed and cash-flow based underwriting standards; sound credit quality & adequate buffers in place to mitigate tail risks

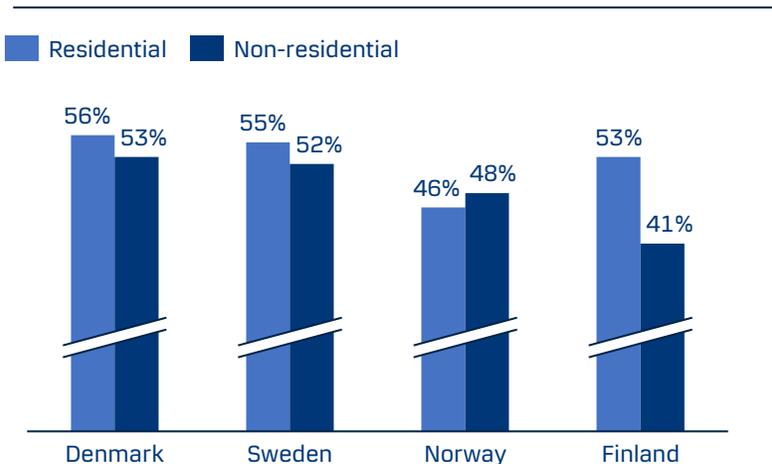

Highlights

- Danske Bank has a relatively low concentration to CRE compared with Nordic peers. The portfolio has been slightly increasing, but at a slower pace than the general corporate book, due to concentration limits and stringent underwriting standards, particularly towards the non-residential segment
- In addition to conservative underwriting, we perform rigorous monitoring of exposures, incl. stress tests:
 - ✓ An interest rate stress of 2-3% pts on top of the borrower's current avg. interest rate for debt not hedged
 - ✓ Significant stress assessment of rent and vacancy rates
- The portfolio is well diversified and well provisioned to mitigate a potential material correction in the sector

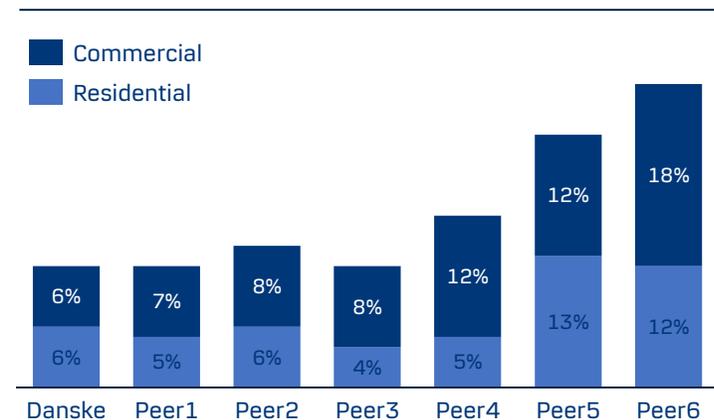

Lending to CRE segment by major peer banks (index)*

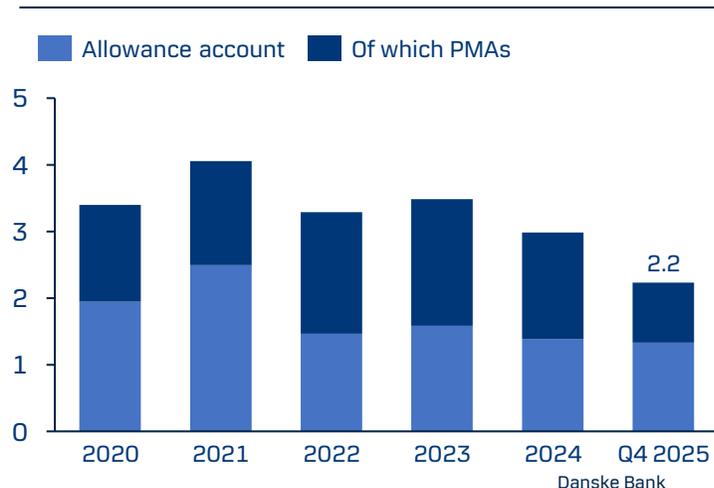

Danske Bank's CRE portfolio avg. LTVs

CRE share of total portfolio by major peer banks*

Danske Bank's CRE allowance account (DKK bn)

*Source: Companies' interim report. Exposure definitions differ among banks between total lending, credit exposure and EaD.

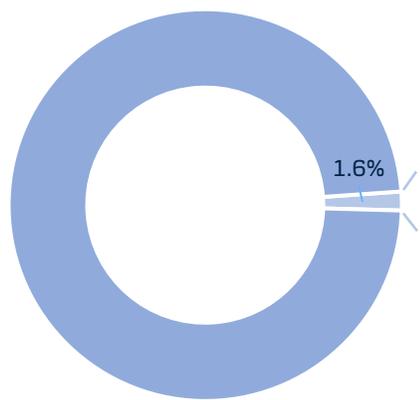

Fossil fuels (coal, oil and gas) exposure

Key points for Q4 2025

- Since end 2020, exposure towards exploration and production (E&P) of oil and gas has been decreasing and is now close to zero
- Exposure to other oil-related activities, i.e. offshore and services, is down by 29% from end 2020. During 2025, exposure has increased, which is primarily to customers that are either already transitioning away from fossil fuels or that can work both on oil and gas as well as offshore renewable energy activities. Customers in the distribution and refining segments have generally started on their transition. For instance, by refineries switching to biofuels or by gas stations investing in infrastructure for charging of electric vehicles
- Exposures shown on this page is to utility customers with any coal-based power production, and hereof more than 5% of revenues from coal fired power production. The list of customers with any coal-fired power production is regularly being reviewed and adjusted accordingly
- For most customers, the use of coal is limited to a few remaining production facilities which are expected to phase-out towards 2030

Group gross credit exposure

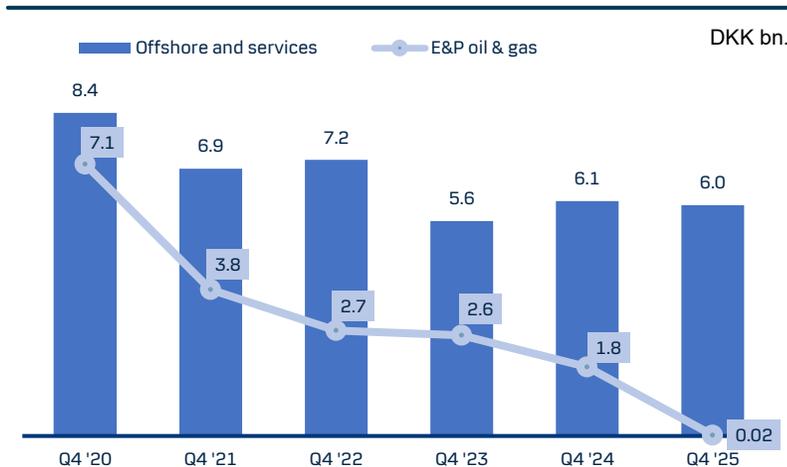

■ Fossil fuels exposure ■ Other

Fossil fuels exposure

| Segment | Net credit exposure (DKK m) | |
|---|-----------------------------|---------------|
| | Q4 2025 | Q4 2024 |
| Crude, gas and product tankers | 7,496 | 9,360 |
| Distribution and refining (incl. biofuels) | 11,898 | 10,929 |
| Oil-related exposure | 6,009 | 7,888 |
| <i>Exploration and production (E&P)</i> | 21 | 1,792 |
| <i>Offshore* and services</i> | 5,988 | 6,096 |
| Power and heating utilities with any coal-based production | 14,145 | 16,977 |
| <i>Hereof customers with more than 5% revenue from coal</i> | 1,420 | 3,082 |
| Total | 39,548 | 45,154 |

*From Q1 2024, offshore pureplay renewables have been excluded from the exposure overview.

Oil-related net credit exposure development

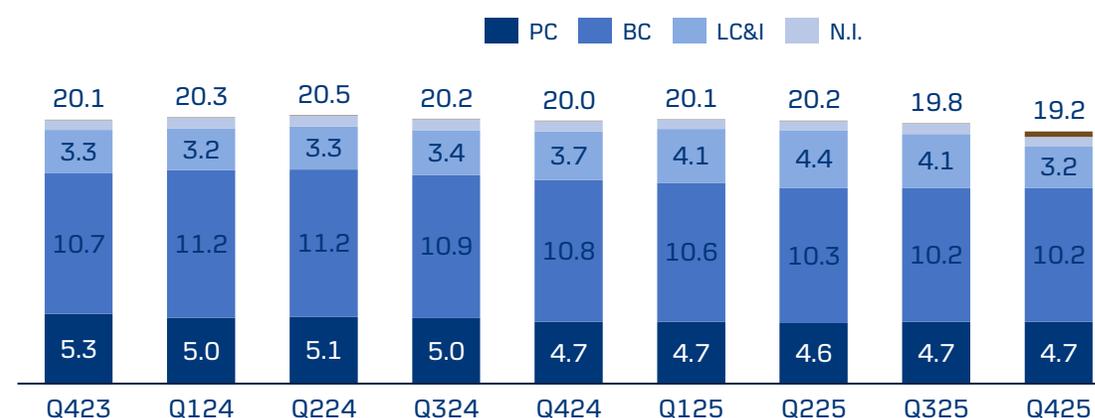

Credit quality: Remains strong

Stage 2 and 3 as % of net exposure

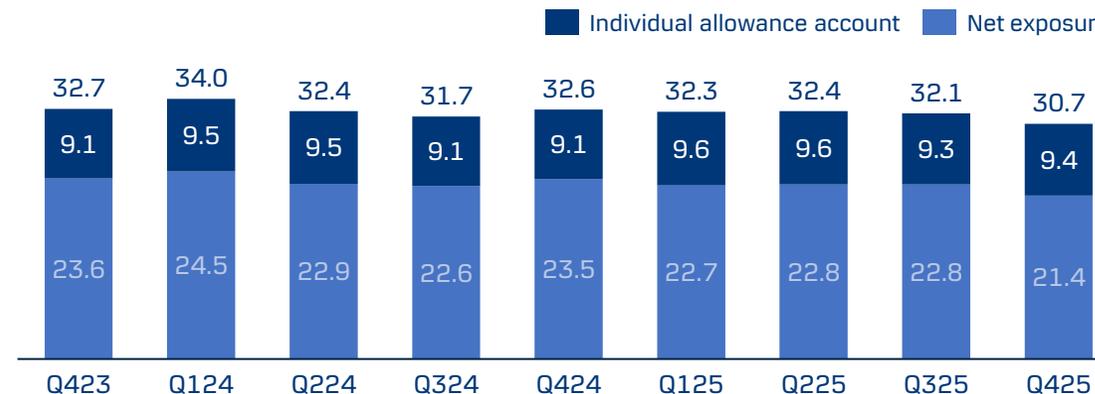

Allowance account by business unit (DKK bn)

Stage 2 allowance account and exposure (DKK bn)

| | Allowance account | Gross credit exposure | Allowance account as % of gross exposure |
|-----------------------|-------------------|-----------------------|--|
| Personal customers | 1.3 | 770 | 0.16% |
| Agriculture | 0.6 | 58 | 1.08% |
| Commercial property | 1.0 | 324 | 0.30% |
| Shipping, oil and gas | 0.1 | 25 | 0.38% |
| Services | 0.4 | 18 | 0.00% |
| Other | 4.1 | 100 | 0.42% |
| Total | 7.5 | 2,450 | 0.29% |

Gross stage 3 loans (DKK bn)

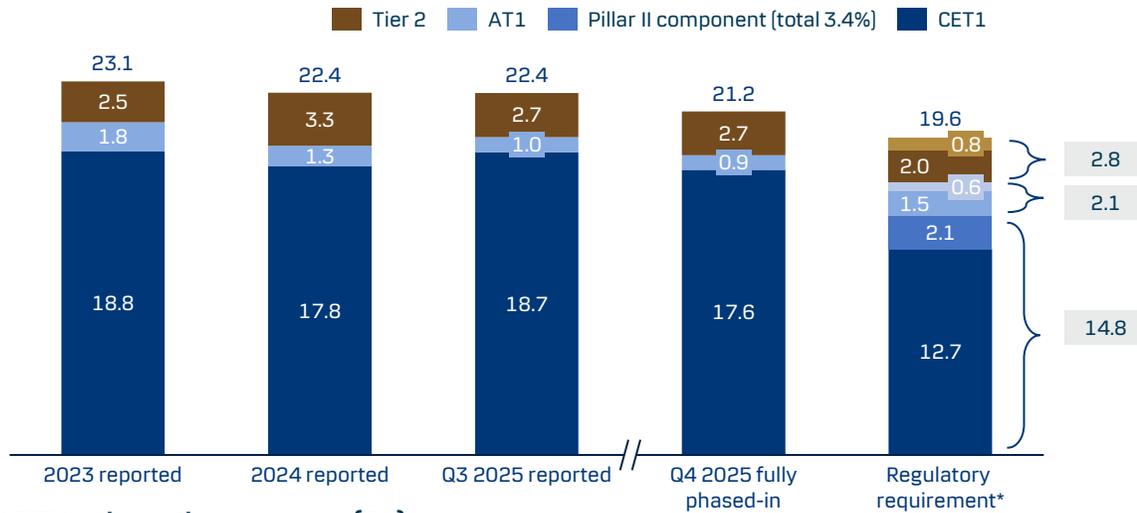

Capital

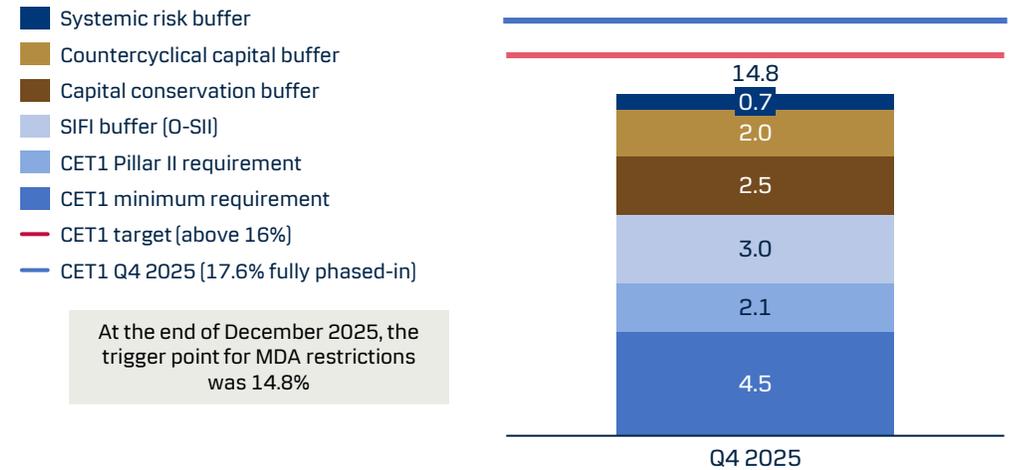

Capital: Strong capital base with CET1 ratio of 17.6%

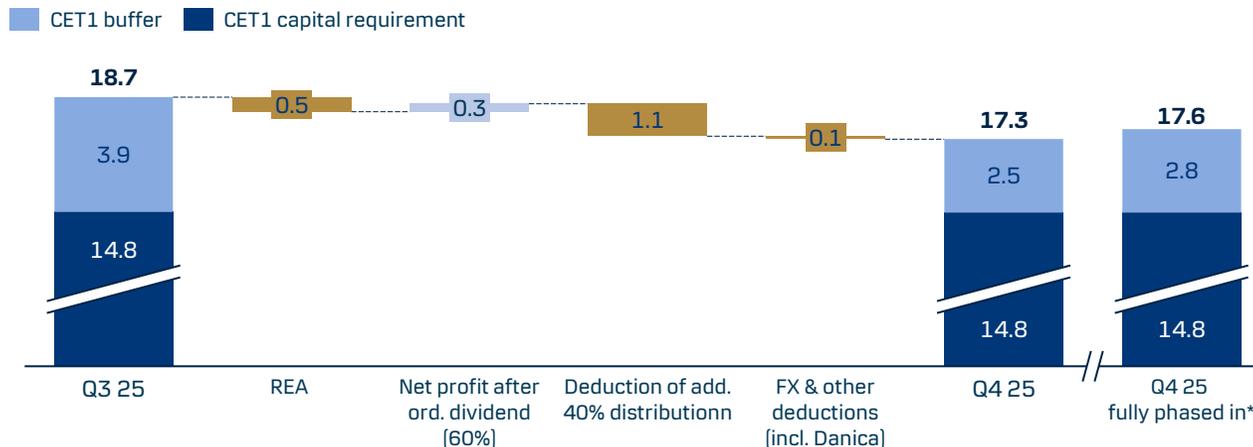

Capital ratios (%)

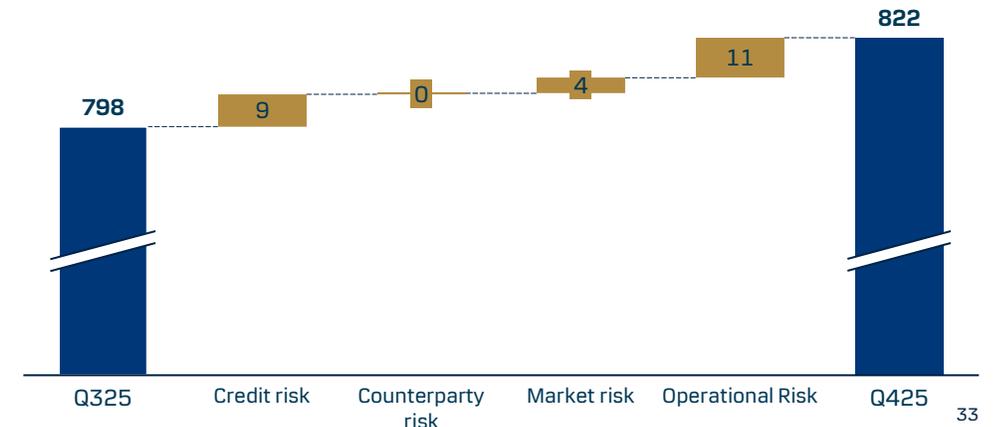

Current capital buffer structure (%)

CET1 development (%)

Total REA (DKK bn)

* Fully phased in CET1 ratio and requirements.

Strong CET1 capital generation and build-up of reserves

Highlights

- Strong capital generation of above 270bps annualised since 2024 (before dividend accrual)
- Regulatory impact from EBA guidelines and initial phase of Basel IV accounted for in REA
- Predictable dividend policy (40-60%), and flexibility around additional capital distribution
- Expect to manage CET1 ratio towards >16% target as part of multi-year targets
- Capital plan reflect prudent buffer of ~200bp to CET1 requirements

Common Equity Tier 1, 2010 - 2025 (DKK bn)

1. The decline in CET1 capital in 2018 is due mainly to Danica Pension's acquisition of SEB Pension Danmark which led to a higher deduction in Group regulatory capital.
 2. Before goodwill impairment charges 3. Based on year-end communicated distributions. 2017 is adjusted for cancelled buy-back. 2019 is adjusted for cancelled dividend.
 4. Excluding the execution of the special dividend of DKK 6.5/share paid in December'24, post the PC NO divestment.

Fully compliant with MREL and subordination requirement; expect to cover MREL need with both preferred and non-preferred senior

MREL & subordination requirement* and eligible funds Q425 DKK bn (% of Group REA)

Comments

- The Group has to meet a MREL requirement and a subordination requirement, both adjusted for Realkredit Danmark (RD)
- The subordination requirement is the higher of $2 \times (P1 + P2) + CBR$ or 8% TLOF
- The Group's MREL requirement (total resolution requirement) is DKK 290bn incl. RD's capital and debt buffer requirement (DKK 49bn) and the combined buffer requirement (DKK 55bn). Excess MREL funds are DKK 43bn
- The Group's subordination requirement is DKK 248bn incl. RD's capital and debt buffer requirement (DKK 49bn). Excess subordinated MREL funds are DKK 24bn
- This figure shows the Group's MREL and subordination requirement as of end Q4 2025, which constitutes the fully-phased in requirements, i.e. no interim target.
- Requirements will, however, be impacted by any changes to the CCyB

*Including Realkredit Danmark's (RD) capital and debt buffer requirements

ESG, Sustainability, Financial Crime Prevention

Sustainability is an integrated element of our Forward '28 strategy

Our position today

- Supporting our customers with advisory and financing for the climate transition
- Strong ESG advisory offerings and #1 Nordic Arranger of Green Bonds
- ESG integrated in key processes, incl. portfolio steering, lending and investments

Our commercial focus

Large Corporates & Institutions

- Financing the climate transition and providing sustainable finance solutions and advisory services

Business Customers

- Supporting companies in their sustainability transition through advisory services, partnerships and financing

Personal Customers

- Supporting customers with housing energy improvement and climate adaptation, EV financing and sustainability in investments

Asset Management & Danica

- Protecting and growing customers' investments in line with their preferences while supporting the sustainability transition

Reinforce stronghold in sustainable finance and advisory

| | 2022 | 2026 |
|---|-----------|---|
| Sustainable finance ¹ | #1 | A leader in supporting our customers' green transition |
| ESG advisory ² | #3 | |
| Sustainable investing ³ | #3 | |

¹ Ranking among Nordic banks in the Bloomberg Global Green Bonds (Corporate & Government League Table) ² Ranking for the Nordics in Sustainability Advisor survey from Prospera (Corporate & institutional clients) ³ Prospera Nordic External Asset Management question: "Has high competence within sustainable investments?"

We have set **targets and ambitions** covering each of our sustainability agendas

Climate change

We support customers in the climate transition

Ambition to provide **100 billion DKK** in financing for the climate transition from 2025 to 2028 ¹

We manage emissions across our business

| Lending | Asset Mgmt. | Life insurance & pension | Operations |
|-------------------------------------|-----------------------------------|--|------------------------------|
| 25-62% | 50% | 1.5°C | 80% |
| Across 9 sectors by 2030 (vs. 2020) | CO2e intensity by 2030 (vs. 2020) | Aligned 2030 targets for listed equities and credits | Scope 1+2 by 2030 (vs. 2019) |

Nature & biodiversity

We advance our ability to support companies in key sectors

- Ongoing development of **data and insights** on nature-related impacts, risks and opportunities
- **Continued engagement** with companies in sectors with heightened impacts, dependencies and potential risks
- Advancing our nature-related **competencies and management capabilities**

For more information on engagements, see our [White Paper](#)

Human rights & social impact

We continuously develop our human rights due diligence processes covering

For details, see our latest [Human Rights Report](#)

1) For details, see our [Climate Progress Report 2025](#) and [Approach to Financing the Climate Transition](#)

Our Climate Action Plan guides the management of our carbon footprint

- Tracking our carbon footprint across business areas and key portfolios
- Customer engagement and active ownership as key progress levers
- Portfolio steering with transparency on objectives and methodologies

CO₂

More than **99%** of our carbon footprint relates to **financed emissions** from our lending and investment activities

Focus on supporting **customer and investee company transitions**

2030 targets based on best practice guidance to align with the **goals of the Paris Agreement** - with status provided in our [Climate Progress Report 2025](#)

For **lending activities**, we have set targets for the most relevant and high-emitting sectors, primarily based on intensity metrics as well as absolute reduction targets for oil and gas exploration & production

Activities in Asset Management and Danica Pension are subject to **temperature rating targets**, in addition to emission reduction targets

We observe continued progress across our climate targets in 2025 – driven by close collaboration with customers and investees

● Below or within 5% above linear trajectory ● 5–10% above linear trajectory ● More than 10% above linear trajectory

| Lending | Asset management | Life insurance & pension | Own operations | Highlights on target development |
|--|---|--|--|---|
| <p>2030 sector emission intensity reduction targets ¹</p> <ul style="list-style-type: none"> Oil and gas – exploration & production ² 50% Oil and gas – downstream refining ³ 25% Power generation 50% Steel 30% Cement 25% Agriculture >30% Commercial real estate 55% Personal mortgages ⁴ 62% <p>2030 sector alignment delta targets ¹</p> <ul style="list-style-type: none"> Shipping ⁵ 0% | <p>2030 temperature rating reduction targets ⁶</p> <ul style="list-style-type: none"> Implied temperature rating of our investment products from 2.75 °C in 2020 to 2.1°C (scope 1 and 2) Implied temperature rating of our investment products from 2.94°C in 2020 to 2.2°C (scope 1, 2 and 3) <p>2030 carbon intensity reduction target ¹</p> <ul style="list-style-type: none"> Weighted average carbon intensity of investment products 50% <p>2025 engagement target ¹</p> <ul style="list-style-type: none"> Engagement with the 100 largest emitters | <p>2030 temperature rating reduction targets ⁶</p> <ul style="list-style-type: none"> Implied temperature rating of our listed equities and credits from 2.5°C in 2020 to 2.0°C (scope 1 and 2) Implied temperature rating of our listed equities and credits from 2.8°C in 2020 to 2.2°C (scope 1, 2 and 3) <p>2025 sector emission intensity reduction targets ⁸</p> <ul style="list-style-type: none"> Real estate ⁷ 69% Energy 15% Utilities 35% Cement 20% <u>Transportation:</u> Shipping 20% Automotive 20% Aviation 20% | <p>2030 emission reduction targets ⁸</p> <ul style="list-style-type: none"> Carbon emissions in scope 1 and 2 80% Carbon emissions in scope 1, 2 and currently measured scope 3 categories 50% | <ul style="list-style-type: none"> Overall - We observe good progress on our climate targets across lending and investment activities as well as our own operations. Lending - We have launched an ambition to facilitate DKK 100 billion of financing to transition companies by 2028. Across our climate targets, we are progressing in line with linear trajectories towards our intermediate 2030 targets for most sectors. Shipping above linear trajectory, reflecting global transition challenges within this sector Investments – Within life insurance & pension, five of seven 2025 sector targets have been reached. These targets have been replaced with a Weighted Average Carbon Intensity reduction target of 60% from 2020 to 2030 for the portfolio. Our asset management Weighted Average Carbon Intensity has been reduced by 42% since 2020, well ahead of a linear trajectory towards the 50% reduction target by 2030. For our temperature rating targets, scope 1 and 2 indicators are on track, while indicators also covering scope 3 are behind linear trajectories, mainly due to fewer investees publishing targets covering scope 3. Own operations - Emissions from our own operations (scope 1, 2, and measured scope 3) have been reduced by 70% since 2019, tracking ahead of our 2030 target. |

[Human Rights Report 2024](#)

Deep dive – Overview of ESG integration in Danske Bank’s lending operations

1. Position statements

- Our position statements are a key tool for communicating our approach to selected themes and sectors with elevated ESG risks
- Our position statements currently cover the following themes and sectors:

Agriculture

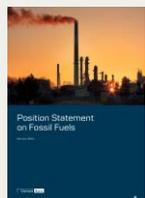

Arms & defence

Climate change

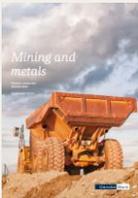

Forestry

Fossil fuels

Human rights

Mining & metals

2. Single-name ESG analysis

- ESG analysis is conducted for all large corporate clients using an internally prepared ESG risk tool
- Tool is developed around the concept of financial materiality i.e. how the financial performance of the company might be affected by environmental and social trends, legislation and factors
- External sources for the tool include:

Financially material ESG factors

ESG risk exposure and management

ESG controversies

Climate-related financial risks and opportunities

3. Portfolio-level ESG analysis

- Carbon disclosures for business areas and key sectors are published annually in Danske Bank’s Climate Progress Report
- Decarbonisation targets set towards 2030, incl. for high-emitting sectors
- Joined PBAF and Finance for Biodiversity Pledge to support efforts to measure and report on how we impact nature through our financing and investing activities

Danske Bank is engaged in a number of sustainability initiatives - including these key examples

| | | | | |
|--|--|---|--|--|
|  <p>Principles for Responsible Banking</p> <p>The world's foremost sustainable banking framework, embedding sustainability at the strategic, portfolio and transactional levels, across all business areas</p> |  <p>Principles for Responsible Investment</p> <p>An international investor network that supports the integration of ESG factors into investment and ownership decisions</p> |  <p>Net-Zero Asset Owner Alliance</p> <p>An initiative of international institutional investors working to transition their investment portfolios to net-zero greenhouse gas emissions by 2050</p> |  <p>Net Zero Asset Managers Initiative</p> <p>An international group of asset managers supporting investing aligned with net-zero greenhouse gas emissions by 2050 or sooner</p> |  <p>Finance for Biodiversity Pledge</p> <p>A collaboration of 150+ financial institutions from 24 countries, committing to protect and restore biodiversity through their finance activities and investments</p> |
|  <p>Science-Based Targets initiative (SBTi)</p> <p>An organisation that aims to drive ambitious climate action in the private sector. Danske Bank has committed to set climate targets in line with SBTi criteria.</p> |  <p>Partnership for Carbon Accounting Financials</p> <p>An industry-led partnership that provides carbon accounting instructions for financial institutions; Danske Bank joined in 2020 as the first major Nordic bank</p> |  <p>Partnership for Biodiversity Accounting Financials</p> <p>An industry-led partnership that provides financial institutions with practical guidance on biodiversity impact and dependency assessments; Danske Bank joined in 2022 as the first Nordic bank</p> |  <p>Poseidon Principles</p> <p>A framework for integrating climate considerations into lending decisions to promote the decarbonisation of international shipping</p> |  <p>UN Global Compact</p> <p>A multi-stakeholder initiative focusing on aligning business operations with ten principles in the areas of human rights, labour, environment and anti-corruption</p> |

Maintaining a sustainable Financial Crime

The comprehensive transformation program launched in 2020, the Financial Crime Plan (FC Plan), was successfully completed by December 2023, establishing a framework that meets regulatory requirements, aligns with global best practices where appropriate, and manages inherent risks within the Bank's tolerance.

In 2024, efforts focused on embedding and ensuring the effectiveness of controls implemented through the FC Plan. A testing program that completed in March 2025 confirmed the framework's effectiveness while identifying areas for improvement. The majority of those areas have been addressed in 2025, through the Financial Crime Compliance Program as part of Business As Usual.

In April 2025, Danske Leasing A/S received an order on customer due diligence. Danske Leasing A/S acknowledged the feedback, shared an action plan to resolve the issue by Q2 2026 and continues to provide regular progress updates to the Danish FSA on the resolution.

In August 2025, the Bank received orders on the Group-wide Financial Crime Risk Assessment, requiring improved risk identification, assessment, and updates to its Financial Crime Policy. Actions to address these orders are progressing as planned and expected to be concluded by Q2 2026.

On 15 December 2025, the three-year corporate probation with the U.S. Department of Justice (DoJ) ended, concluding the case related to the former Estonia branch. During the probation, Danske Bank fulfilled post-resolution obligations through a dedicated Post-Resolution Programme and Task Force. Internal reviews confirmed compliance with DoJ expectations and that the Financial Crime Compliance Program was assessed and endorsed as adequate.

While the corporate probation has ended, the maintenance of a sustainable Financial Crime Compliance Program remains a strategic priority to Danske Bank, aiming to ensure ongoing effectiveness and efficiency. This is supported by established governance frameworks, assurance functions, internal audits, and strategic initiatives aligned with the Forward'28 Strategy, as well as monitoring of regulatory developments and market practices.

Financial Crime Framework after the conclusion of the DoJ probation

The FC Plan established a robust Financial Crime Framework that meets regulatory requirements, manages risk within tolerance, and aligns with global best practices where appropriate. This framework was a key in fulfilling post-resolution obligations to the DoJ related to the former Estonia branch, leading to the successful conclusion of the three-year corporate probation.

As part of concluding the probation, the Financial Crime Compliance Program was assessed and endorsed as adequate.

The Financial Crime Framework includes, but is not limited to:

- ✓ **Oversight and governance** of financial crime controls across the Bank to identify, mitigate and manage financial crime risks and **a framework of financial crime related policies and instructions** designed to meet regulatory requirements in all jurisdictions in which the Bank operates
- ✓ An **assessment to risk score customers** at initial onboarding and throughout the customer life cycle and **risk-based Know-Your-Customer processes and controls** prior to the establishment of a business relationship and during the ongoing customer lifecycle
- ✓ Systems and processes in place to **monitor transactions** of relevant products for potentially suspicious activity in all markets and procedures to appropriately **investigate unusual activity and report activity which is deemed to be suspicious** or could point to cases of financial crime
- ✓ **A sanctions framework** that is compliant with applicable and relevant laws and regulations to ensure the Bank does not transact with, nor hold as customers, parties or entities subject to financial sanctions and embargoes
- ✓ Effective oversight over its **correspondent banking relationships** and processes to carry out appropriate, risk-based ongoing and enhanced due diligence on them and facilitate decision-making in line with the Bank's risk tolerance
- ✓ **A financial crime training framework** ensuring that training needs are analysed, tailored trainings developed, enhanced, and delivered across the Bank
- ✓ An enhanced **framework for responding to regulatory requests made by the Bank's supervisors** in all jurisdictions in which the Bank operates
- ✓ Regulatory standards to manage critical risks in relation to **tax evasion, fraud and bribery & corruption**, as well as continuous control improvements to ensure appropriate coverage and mitigation of key risks for the financial crime risks.

Regulatory Engagements

Ongoing Dialogue

- We engage in ongoing dialogue with our regulators through regular meetings with the Financial Supervisory Authorities (“FSAs”) and the AML Supervisory College to ensure aligned expectations and transparency between our regulators and Danske Bank.
- We provide regular updates and engage in frequent interactions with the Danish FSA on our progress in business strategy and other business developments, and how we are addressing any regulatory feedback. We proactively share information with all regulators.

Regulatory Inspections

- Danske Bank has completed and closed all financial crime-related orders related to the Estonia matter, including those arising from inspections under the FC Plan.
- In Q2 2025, the Danish FSA issued one financial crime-related order to Danske Leasing A/S following its review of customer due diligence measures and monitoring of customers.
- In Q3 2025, the Danish FSA issued two financial crime-related orders to Danske Bank A/S following its review of the Group’s 2024 Financial Crime Group-Wide Risk Assessment (FC GWRA).
- We have established a framework and process to manage regulatory inspections and requests, ensuring that any regulatory orders are addressed openly and transparently. All regulatory deliverables are formally documented, with progress regularly communicated to the relevant authorities.

Supervisory Oversight

- The Danish FSA, as well as other relevant FSAs, carry out supervisory oversight of the Bank, branches and subsidiaries and their regulatory compliance.
- The Danish FSA had appointed an Independent Expert to oversee Danske Bank’s commitments and reporting obligations under the DoJ Plea Agreement. The Expert has concluded their appointment in November 2025.
- In December 2025, the Danish FSA released its Risk Picture for the first half (H1) of 2026. In H1 2026, the Danish FSA will focus on enhancing Anti-Money Laundering (AML) efforts within the financial sector. This includes trade-based money laundering with enhanced focus on detecting and preventing trade-based financial crime.

The Resolutions with the Danish and U.S. Authorities

In December 2022, Danske Bank reached the final resolutions with the U.S. Department of Justice (DoJ), the U.S. Securities and Exchange Commission (SEC) and the Danish Special Crime Unit (SCU) following the investigations in relation to the non-resident portfolio at Danske Bank's former branch in Estonia. The resolutions marked an end to the investigations, while also emphasising the importance of the journey ahead.

Pre-Resolution

Already during the investigations, Danske Bank:

- Made significant investments in building systems and upgrading our compliance, risk and control capabilities
- Started implementing a comprehensive transformation program, the FC Plan, which has now been completed
- Provided full cooperation with the investigation, which has been acknowledged by the U.S. authorities in the form of a cooperation credit

The Plea Agreement

Danske Bank's Plea Agreement with the DoJ sets out a number of obligations, including:

- Broad disclosure obligations (§11, 13 and 30 of the Plea Agreement and §13 of Appendix D)
- Compliance Commitments and Compliance Reporting Requirements (Appendices C and D)
- Obligations to meet with U.S. authorities quarterly to discuss progress of the remediation (Appendix D)
- Certification requirements (Appendices E and F)

As part of the Plea Agreement, Danske Bank was placed on corporate probation for three years, which is a period of supervision by the U.S. court. Danske Bank complied with all terms of the corporate probation

Post-Resolution

On 15 December 2025, Danske Bank confirmed that its three-year corporate probation with the DoJ has been concluded.

The conclusion marks the end of the process to resolve the case with the U.S. authorities related to the non-resident portfolio at Danske Bank's former Estonia branch.

Tax & Material one-offs

Tax

Actual and adjusted tax rates (DKK m)

| Line | | 2025 Q4 | 2025 Q3 | 2025 Q2 | 2025 Q1 | 2025 |
|------|--|---------------|--------------|--------------|--------------|--------------|
| 1 | Profit before tax according to P&L | 30,699 | 8,335 | 7,384 | 7,390 | 7,591 |
| 2 | Permanent non-taxable difference | 438 | -211 | 235 | 160 | 253 |
| 3 | Adjusted pre-tax profit, Group | 31,137 | 8,124 | 7,619 | 7,550 | 7,844 |
| 4 | Tax according to P&L | 7,662 | 2,028 | 1,864 | 1,936 | 1,834 |
| 5 | Taxes from previous years etc. | -44 | -53 | -5 | -79 | 94 |
| 6 | Adjusted tax | 7,618 | 1,975 | 1,859 | 1,857 | 1,928 |
| 7 | Adjusted tax rate | 24.5% | 24.3% | 24.4% | 24.6% | 24.6% |
| 8 | Actual-/Effective tax rate | 25.0% | 24.3% | 25.2% | 26.2% | 24.2% |
| 9 | Actual-/Effective tax rate exclusive prior year regulation | 24.8% | 23.7% | 25.2% | 25.1% | 25.4% |

Tax drivers, Q4 2025

- The actual tax rate of 23.7% (excluding prior-year's adjustments) is lower than the Danish rate of 26% - due to the differences in statutory tax rates in the various countries in which we operate and the tax effect from tax exempt income/expenses
- Adjusted tax rate of 24.3% is lower than the Danish rate of 26%, reflecting a weighted average of the statutory tax rates in the countries in which we operate
- The permanent non-taxable difference derives from tax-exempt income/expenses

Disclaimer for Danske Bank's Climate Progress Report 2025

Danske Bank's Climate Progress Report 2025 has been prepared by Danske Bank A/S ("Danske Bank"). Danske Bank is under supervision by the Danish Financial Supervisory Authority (Finanstilsynet).

The publication is for informational purposes only. It is not a regulated disclosure and has not been reviewed or approved by any supervisory authority.

The publication does not constitute a recommendation, offer or solicitation of an offer to trade a financial instrument or any other banking, investment, insurance or other product or service in any jurisdiction, including the United States. It should not be relied upon as investment, legal, tax or financial advice. Always consult with professional advisers as to the suitability and appropriateness of an investment. No part of this publication, including any reference to banking services, investment services, insurance services, and/ or consumer lending services, nor the fact of its distribution, is intended for US persons, including any national or resident of the United States, or any corporation, partnership or other entity organised under the laws of the United States.

Reasonable care has been taken to ensure that the content is fair, true and not misleading. However, the publication includes information that is subject to uncertainties stemming from limitations in underlying methodologies and data. Models and data sources used in preparing this report will continue to evolve, and Danske Bank makes no representation and gives no assurance to the likelihood of achievement, content's accuracy or completeness, including third-party information, and accepts no liability for any loss arising from relying on the information provided. The information in this report has not been independently verified.

The forward-looking statements in the publication reflect Danske Bank's current view of future events and are based on expectations, projections, assumptions and estimations, which involve uncertainties and risks, including, but not limited to, evolving science, developing methodologies and scenarios, variation in standards, future market conditions, technological developments (which vary significantly from industry to industry), challenges related to data availability, accuracy, verifiability, changes in regulation and realisation of government plans and strategic objectives.

Climate data, models and methodologies are evolving and do not yet match the standards of financial reporting information. The forward-looking statements should not be viewed as reliable indicators of future performance or as complete or accurate accounts of actual performance. Evolving methodologies and data availability pose challenges for reporting accuracy, and updates to these may alter the conclusions presented, thereby causing descriptions, figures and charts in the report to become outdated. All forward-looking statements made represent only the prevailing sentiment at the time of publication and may require future re-evaluation.

As market practices and data quality and availability develop, Danske Bank may be required to update its methodologies or adjust its approach to ESG analysis, possibly amending, updating and recalculating its targets and assessments. Danske Bank undertakes no obligation to update or revise any forward-looking statements in this publication to reflect events or circumstances after the date of publication. Caution must be exhibited when interpreting this publication. For additional important information regarding data, models and methodologies, please see the separate publication on accounting principles and methodologies.
