RECENT DEVELOPMENTS

In Company Announcement No. 26/2014 released on 15 December 2014, Danske Bank A/S announced that it expects to make goodwill impairments. Accordingly the following section is to be added to the bottom of page 154 in the Base Prospectus:

“Danske Bank A/S announced that it expects to make goodwill impairments of about DKK 9 billion (EUR 1.21 billion)¹ in its 2014 annual report. Shareholders’ equity will be reduced by the same amount. This should be viewed in light of shareholders’ equity and total goodwill of DKK 158.7 billion (EUR 21.34 billion) and DKK 18.6 billion (EUR 2.50 billion), respectively, at 30 September 2014.

The goodwill impairments are the result of Danske Bank’s ordinary goodwill impairment testing, changed macroeconomic conditions and Danske Bank’s dialogue with the Danish Financial Supervisory Authority regarding the measurement of the Bank’s goodwill. Moreover, the note disclosures on goodwill in the financial statements will be enhanced.

The goodwill impairments relate to Danske Bank’s activities in Finland, Northern Ireland and Estonia. The impairments are based on long-term assessments and do not relate to expected short-term developments at the individual business units.”

The Company Announcement is not incorporated by reference in this Prospectus Supplement, however the full text can be found at www.danskebank.com.

Section D – Risks

Element	Title	
D.2	Key risks specific to the Issuer	<p>In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in this Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include:</p> <ul style="list-style-type: none"> • the Group is exposed to a number of risks, the categories of which are credit risk, market risk, liquidity risk, operational risk, insurance risk and pension risk; • regulatory changes could materially affect the Issuer's business; • the Issuer will face increased capital and liquidity requirements as a result of the new framework implementing, among other things, the Basel Committee on Banking Supervision's proposals imposing stricter capital and liquidity requirements upon banks in the European Union;
		<ul style="list-style-type: none"> • the implementation of a bank recovery and resolution directive or the taking of any action under it could materially affect the value of any Notes; • there are certain Danish resolution regimes which may impact the Notes; • the Group may have to pay additional amounts under resolution funds or deposit guarantee schemes; and • the Group may be affected by general economic and geopolitical conditions.
