AMENDMENT TO THE BASE PROSPECTUS

The last sentence of the "*The Group operates in a legal and regulatory environment that exposes it to potentially significant litigation and regulatory risks*" risk factor on page B-2 shall be deleted and replaced with the following:

"The timing of completion of the investigations by, and subsequent discussions with, the authorities is uncertain, as is the outcome. See "***Legal Proceedings***" on page D-13 and "***Recent Developments***" on page D-20 of the Base Prospectus."

The section with two bullet points in "Shareholders' equity" on page D-7 of the Base Prospectus shall be deemed deleted and replaced with the following:

"As of year-end 2018, two shareholder groups had notified the Issuer of holding 5 per cent. or more of the Issuer's share capital and voting rights:

• A.P. Møller-Holding Group held a total (directly and indirectly) of more than 20.0 per cent. of the shares and the voting rights of the Issuer; and

• BlackRock Inc. held a total (indirectly via shares and other financial instruments with similar economic effect) of more than 5.0 per cent. of the shares and the voting rights of the Issuer.

As of 28 January 2019 BlackRock Inc. announced that it held (indirectly via shares and other financial instruments with similar economic effect) 4.99 per cent. of the shares and the voting rights of the Issuer."

The following paragraphs shall be inserted after the third paragraph in "Legal Proceedings" on page D-13 of the Base Prospectus:

"On 7 February 2019, the Issuer was again placed under formal investigation ("mise en examen") by an investigating judge at the Tribunal de Grande Instance de Paris in connection with an investigation into suspicion of money laundering related to certain transactions in the terminated portfolio of non-resident customers of the Issuer's branch in Estonia in the period from 2007 to 2014. The investigation covers transactions amounting to around EUR 21.6 million. The Issuer has been ordered to post bail in the amount of EUR 10.8 million.

The terminated portfolio of non-resident customers is described in more detail in the Report on the Non-Resident portfolio at Danske Bank's Estonian branch dated 19 September 2018 prepared by the Danish law firm Bruun & Hjejle (the "**Report**"). Whilst the Report showed shortcomings and failures, including late and inadequate handling of the issues arising from the Estonia matter, the investigation into the terminated portfolio of non-resident customers has made no findings which enable it to conclude whether money laundering, tax evasion or other criminal activity has actually taken place. The Report has now been included in the investigation in France.

On 9 January 2019, an action was filed in New York by an alleged holder of the Issuer's American

Depositary Receipts, representing its ordinary shares, against the Issuer. The complaint seeks unspecified damages on behalf of a putative class of purchasers of the Issuer's American Depositary Receipts between 9 January 2014 and 23 October 2018. The Issuer intends to defend itself against the claims. The timing of completion of the lawsuit and the outcome are uncertain.

As stated in the press release of 4 October 2018, the Issuer is currently in a dialogue with the U.S. Department of Justice ("**DOJ**"), which is conducting a criminal investigation in relation to the case of possible money laundering at the Issuer's branch in Estonia. As stated in the press release of 21 February 2019, in addition to the dialogue with the DOJ, the Issuer has received an inquiry from the U.S. Securities and Exchange Commission which is also carrying out an investigation. The Issuer is cooperating with all relevant authorities in order to clarify the full details of the case.

Recent reports in the media have pointed to potential further legal actions being raised against the Issuer in connection with the Estonian case. The timing of completion of any such lawsuits and their outcomes are uncertain."

RECENT DEVELOPMENTS

In Company Announcement No. 4/2019 released on 19 February 2019, Danske Bank A/S announced that it will close down its banking activities in the Baltics and Russia. Accordingly, the following sections are to be added to the bottom of the "Recent Developments" section on page D-20 of the Base Prospectus::

"***Danske Bank closes down its banking activities in the Baltics and in Russia***

Following the case of suspicious transactions in Estonia in the period from 2007 to 2015, the Estonian Financial Supervision Authority (the "**Estonian FSA**") has ordered the Issuer to cease banking operations in Estonia, which the Issuer has agreed to do.

Independently of the notification from the Estonian FSA and in line with its strategy of focusing on its Nordic core markets, the Issuer has for some time considered the future of its remaining activities in Estonia, Latvia and Lithuania, as well as the activities in Russia. The Issuer has now decided to close down all of these activities.

However, the Issuer's shared services centre in Lithuania, which undertakes a number of administrative functions for the Issuer, will continue its operations."

GENERAL INFORMATION

Paragraphs in the section "Material Change and Significant Change" and "Legal Proceeding" on pages D-27 of the Base Prospectus shall be deemed deleted and replaced with the following paragraphs, respectively:

"**Material Change and Significant Change**

(i)   There has been no significant change in the financial position of the Issuer or of the Issuer and its Subsidiaries taken as a whole since 31 December 2018, the last day of the financial period in respect of which the most recent financial statements of the Issuer have been prepared; and

(ii)   On 9 January 2019, an action was filed in New York by an alleged holder of the Issuer's American Depositary Receipts, representing its ordinary shares, against the Issuer. The complaint seeks unspecified damages on behalf of a putative class of purchasers of the Issuer's American Depositary Receipts between 9 January 2014 and 23 October 2018. The Issuer intends to defend itself against the claims. On 7 February 2019, the Issuer was again placed under formal investigation ("mise en examen") by an investigating judge at the Tribunal de Grande Instance de Paris in connection with an investigation into suspicion of money laundering related to certain transactions in the terminated portfolio of non-resident customers of the Issuer's branch in Estonia in the period from 2007 to 2014. The investigation covers transactions amounting to around EUR 21.6 million. The Issuer has been ordered to post bail in the amount of EUR 10.8 million. The timing of completion of the lawsuit and the investigations and the outcomes are uncertain. Save for such lawsuit and investigations, there has been no material adverse change in the prospects of the Issuer since 31 December 2018, the last day of the financial period in respect of which the most recently audited financial statements of the Issuer have been prepared.

Legal Proceedings

Save as outlined in the section "Legal Proceedings" on page D-13 and the first, fourth, fifth, ninth, eleventh and twelfth bullets on page 13 of the Annual Report 2018, there are no governmental, legal or arbitration proceedings against or affecting the Issuer or any of its Subsidiaries (and no such proceedings are pending or threatened of which the Issuer is aware) during a period covering at least the previous twelve months which have or may have in the recent past, individually or in the aggregate, significant effects on the profitability or the financial position of the Issuer or of the Issuer and its Subsidiaries taken as a whole."

Early redemption

See "Taxation" and "Events of Default" in Element C.8 above [and "Disrupted Days, Market Disruption Events and Adjustments" below] for information on early redemption in relation to the Notes.

If the Issuer determines that performance of its obligations under the Notes or that any arrangements made to hedge its obligations under the Notes has or will become illegal in whole or in part as a result of compliance with any applicable present or future law (an "**illegality**"), the Issuer may redeem the Notes early and, if and to the extent permitted by applicable law, will pay an amount equal to the early redemption amount in respect of each calculation amount.In addition, the terms and conditions of the Notes contain provisions relating to events affecting any figure which is a "benchmark" as defined in Regulation (EU) 2016/1011. Such provisions may permit the Issuer to, among other things, redeem the Notes early and to pay an amount equal to the early redemption amount in respect of each calculation amount.

In the circumstances specified above, the "**early redemption amount**" payable on any such early redemption of the Notes will be [[●] per calculation amount] [an amount determined by the Calculation Agent which represents the fair market value of each calculation amount of the Notes [(which amount shall include amounts in respect of interest)] on a day selected by the Issuer (in the case of an early redemption following an illegality, ignoring the relevant illegality), but adjusted (except in the case of an early redemption following an event of default) to account for losses, expenses and costs to the Issuer and/or its affiliates of unwinding any hedging and funding arrangements in respect of the Notes, provided that, for the purposes of determining the fair market value of each calculation amount of the Notes following an event of default, no account shall be taken of the financial condition of the Issuer which shall be presumed to be able to perform fully its obligations in respect of the Notes].

Section D– Risks

Element	Title	
D.2	**Key risks specific to the Issuer**	In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in the Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include: • the Group is exposed to a number of risks, the categories of which are credit risk, market risk, liquidity risk, operational risk, litigation and regulatory risk, insurance risk, pension risk and business risk; • regulatory changes could materially affect the Issuer's business; • the Issuer faces increased capital and liquidity requirements as a result of the Basel III Framework; • the implementation of a bank recovery and resolution directive or the taking any action under it could materially affect the value of any Notes; • the Group may have to pay additional amounts under deposit guarantee schemes or resolution funds; and • the Group may be affected by general economic and geopolitical conditions.

D.[3/6] (D.3 applicable for Annexes V and XIII) (D.6 applicable for Annex XII)	**Key information on key risks specific to the Notes**	*The Issuer believes that the factors summarised below represent the principal risks inherent in investing in the Notes, but the Issuer may be unable to pay amounts on or in connection with any Notes for other reasons which may not be considered significant risks by the Issuer based on information currently available to it and which it may not currently be able to anticipate.*
		[Notes may involve a high degree of risk. There are certain factors which are material for the purpose of assessing the market risks associated with investing in the Notes, which include, without limitation, the following: an active secondary market in respect of the Notes may never be established or may illiquid and this would adversely affect the value at which an investor could sell its Notes, if an investor holds Notes which are not denominated in the investor's home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding and the imposition of exchange controls could result in an investor not receiving payment on those Notes, the market value of the Notes will be affected by a number of factors independent of the creditworthiness of the Issuer, credit ratings assigned to the Issuer may not reflect all the risks associated with an investment in the Notes, the Notes may not be a suitable investment for all investors, [because the global Notes are held by or on behalf of Euroclear Bank S.A./N.V. and Clearstream Banking S.A., investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer/because the VP Systems Notes are dematerialised securities, investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer,] [investors who purchase Notes in denominations that are not an integral multiple of the Specified Denomination may be adversely affected if definitive Notes are subsequently required to be issued,] the recognition as eligible collateral for the Eurosystem and intra-day credit operations by the Eurosystem of New Global Notes is dependent upon satisfaction of the Eurosystem eligibility criteria at the relevant time, [there is no taxation gross-up in respect of the Notes,] taxes and expenses may be payable by holders in connection with the Notes, U.S. Foreign Account Tax Compliance Act withholding may affect payments on the Notes, the Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes, the proposed financial transactions tax may apply in respect of certain dealings in Notes, reforms to benchmarks could have an effect on the Notes; the Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors, the value of the Notes could be adversely affected by a change in applicable laws or administrative practice, the Issuer has issued covered bonds and if any relevant claims in respect of these covered bonds are not met out of the pool of assets or the proceeds arising from it, any remaining claims will subsequently rank pari passu with the Issuer's obligations under the Notes.
		In addition, there are certain factors which are material for the purpose of assessing the risks relating to the structure of the Notes, which include, without limitation, the following: [as the Issuer has the right to redeem the Notes at its option, this may limit the market value of the

		Notes and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return] [and] [if the Issuer's obligations under the Notes become illegal, the Issuer may redeem the Notes] [and] [the value of Fixed Rate Notes may be affected by movements in market interest rates] [and] [investors in Capped Floating Rate Notes will not benefit from increases in reference rates which would apply to Variable Rate Notes with no cap] [and] [Variable Rate Notes may be volatile investments] [and] [where a Rate of Interest is determined in conjunction with a multiplier or other leverage factor, the effect of changes will be enhanced] [and] [interest is accumulated during the term of the Notes and is only paid on or about the Maturity Date] [and] [Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates]
		[There are certain additional risks associated with Notes linked to the Reference Item[s]: prospective investors in the Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of the Notes in light of their particular financial circumstances, the information set forth in the Base Prospectus and the information regarding the Notes and the Reference Item[s] to which [the value of, or payments in respect of,] the Notes relate. Fluctuations in the value and/or volatility of [the Reference Item[s]/obligations issued or guaranteed by the Reference Entity] may affect the value of the Notes. Investors may risk losing their entire investment. Investors will have no claim against any Reference Item. Hedging arrangements of the Issuer may affect the value of the Notes and there may be conflicts of interest in respect of the Notes. [Market disruptions or other adjustment events may occur in respect of the Reference Item[s] which may result in valuations and/or payments being delayed, the Notes may be subject to adjustment (including, without limitation, that the relevant Reference Item may be substituted) or the Notes may be redeemed early.]

The Notes will represent an investment linked to [the performance of] the Reference Item[s] and prospective investors should note that the return (if any) on their investment in the Notes will depend upon [the performance of] the Reference Item[s].] |

		[There are certain additional risks associated with Credit-Linked Notes: prospective investors in the Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of the Notes in light of their particular financial circumstances, the information set forth in the Base Prospectus and the information regarding the Notes and the Reference Entit[y][ies] to which the value of and payments in respect of the Notes relate. Fluctuations in the value and/or volatility of obligations issued or guaranteed by a Reference Entity may affect the value of the Notes and the occurrence of a Credit Event in respect of a Reference Entity will reduce the amount of interest and principal payable and may alter the timing of redemption. Investors may risk losing their entire investment. Investors will have no claim against any Reference Entity. Hedging arrangements of the Issuer may affect the value of the Notes and there may be conflicts of interest in respect of the Notes. The terms of the Notes may change by reference to market convention and as a result of determinations made by a relevant Credit Derivatives Determination Committee. A Reference Entity may be replaced due to events beyond the control of the Issuer. The risk associated with the Notes may increase as a result of changes to the Notes after the issue date.]
[D.6 *(Applicable for Annex XII)*	**Risk Warning**	**THE AMOUNT PAID ON REDEMPTION OF THE NOTES MAY BE LESS THAN THE PRINCIPAL AMOUNT OF THE NOTES, TOGETHER WITH ANY [ACCRUED] INTEREST, AND MAY IN CERTAIN CIRCUMSTANCES BE ZERO. INVESTORS MAY LOSE THE VALUE OF THEIR ENTIRE INVESTMENT, OR PART OF IT, AS THE CASE MAY BE.]**
