PROSPECTUS SUPPLEMENT NO. 3 DATED 13 FEBRUARY 2017 TO THE BASE PROSPECTUS DATED 22 JUNE 2016

EUR 5,000,000,000 STRUCTURED NOTE PROGRAMME

This Prospectus Supplement dated 13 February 2017 (the "Prospectus Supplement" or "Prospectus Supplement No. 3") to the Base Prospectus dated 22 June 2016, the Supplement No. 1 dated 5 August 2016 and the Supplement No. 2 dated 4 November 2016 (together with the Prospectus Supplement, the "Base Prospectus") constitutes a supplement for the purposes of Article 16 of Directive 2003/71/EC, as amended (the "Prospectus Directive") and is prepared in connection with the Structured Note Programme (the "Programme") established by Danske Bank A/S (the "Issuer"). Terms defined in the Base Prospectus have the same meaning when used in this Prospectus Supplement.

This Prospectus Supplement has been approved by the Central Bank of Ireland as competent authority under the Prospectus Directive. The Central Bank of Ireland only approves this Prospectus Supplement as meeting the requirements imposed under Irish and European law pursuant to the Prospectus Directive.

Application has been made to the Irish Stock Exchange for the approval of the Prospectus Supplement as Listing Particulars Supplement (Listing Particulars Supplement).

Where Notes are admitted to trading on the global exchange market (the "Global Exchange Market") which is the exchange regulated market of the Irish Stock Exchange, references herein to "Prospectus Supplement" should be taken to mean "Listing Particulars Supplement".

The Issuer accepts responsibility for the information contained in this Prospectus Supplement. To the best of the knowledge of the Issuer (which has taken all reasonable care to ensure that such is the case) the information contained in this Prospectus Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

GENERAL

_

¹ In the Danske Bank Group's annual report as at and for the year ending 31 December 2016, the comparative figures for the year ended 31 December 2015 were restated. Element B.12 and note 2 in the Annual Report 2016 reflect the restatements for the year 2015. By virtue of the Prospectus Supplement No. 3 dated 13 February 2017, the words "31 December 2015" and "30 September 2016" in "Statement of no material adverse change" and "Description of significant changes to financial or trading position" have been deleted and the words "31 December 2016" are substituted therefore and changes have been made in the section "Selected historical key financial information" to reflect the publication of the consolidated audited annual financial statements as at and for the year ended 31 December 2016.

To the extent that there is any inconsistency between (a) any statement in this Prospectus Supplement and (b) any other statement in or incorporated by reference in the Base Prospectus, the statements in (a) above will prevail.

Save as disclosed in this Prospectus Supplement, there has been no other significant new factor, material mistake or inaccuracy relating to information included in the Base Prospectus since the publication of the Base Prospectus.

See "Risk Factors" in the Base Prospectus for a discussion of certain risks that should be considered in connection with certain types of Notes which may be offered under the Programme.

Investors who have already agreed to purchase or subscribe for Notes before this Prospectus Supplement is published have the right, exercisable by the close of business on 15 February 2017 to withdraw their acceptances.

SCHEDULE 1

AMENDMENTS TO THE SUMMARY OF THE BASE PROSPECTUS

The following amendments are made to the Summary set out in the Base Prospectus:

SECTION A - SUMMARY

Summaries are made up of disclosure requirements known as "Elements". These Elements are numbered in Sections A - E (A.1 - E.7). This Summary contains all the Elements required to be included in a summary for the Notes and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

Section A - Introduction and Warnings

Element							
A.1	This summary should be read as an introduction to the Base Prospectus and the relevant Final Terms.						
	Any decision to invest in any Notes should be based on a consideration of the Base Prospectus as a whole, including any documents incorporated by reference and the relevant Final Terms. Where a claim relating to information contained in the Base Prospectus and the relevant Final Terms is brought before a court in a Member State of the European Economic Area, the plaintiff may, under the national legislation of the Member State where the claim is brought, be required to bear the costs of translating the Base Prospectus and the relevant Final Terms before the legal proceedings are initiated.						
	No civil liability will attach to the Issuer in any such Member State solely on the basis of this summary, including any translation hereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus and the relevant Final Terms or, following the implementation of the relevant provisions of Directive 2010/73/EU in the relevant Member State, it does not provide, when read together with the other parts of the Base Prospectus and the relevant Final Terms, key information (as defined in Article 2.1(s) of the Prospectus Directive) in order to aid investors when considering whether to invest in the Notes.						
A.2	[Not Applicable – The Notes may only be offered in circumstances where there is an exemption from the obligation under the Prospectus Directive to publish a prospectus (an "Exempt Offer").]						
	[The Notes may be offered in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus (a "Non-exempt Offer").						
	Consent: Subject to the conditions set out below, the Issuer consents to the use of this Base Prospectus in connection with a Non-exempt Offer of Notes by [name(s) of relevant Dealer/Managers] [;/and] [names of specific financial intermediaries listed in final terms,] [and each financial intermediary whose name is published on the Issuer's website (www.danskebank.com) and identified as an Authorised Offeror in respect of the relevant Non-exempt Offer] ([together,] the "Authorised Offeror[s]").						

Offer period: The Issuer's consent referred to above is given for Non-exempt Offers of Notes during [offer period for the issue to be specified here] (the "Offer Period").

Conditions to consent: The conditions to the Issuer's consent are that such consent (a) is only valid during the Offer Period; and (b) only extends to the use of the Base Prospectus to make Non-exempt Offers of the relevant Tranche of Notes in [specify each Relevant Member State in which the particular Tranche of Notes can be offered].

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY NOTES IN A NON-EXEMPT OFFER FROM [AN/THE] AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY [SUCH/THE] AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH ANY TERMS AND OTHER ARRANGEMENTS IN PLACE BETWEEN [SUCH/THE] AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING AS TO PRICE, ALLOCATIONS AND SETTLEMENT ARRANGEMENTS. The optional redemption amount payable in such circumstances is $[\bullet]$ per calculation amount and the optional redemption date(s) [is/are] $[\bullet]$ [, $[\bullet]$ and $[\bullet]$].]

[Early Redemption (Autocall)

The Notes may be redeemed early in the circumstances set out below by payment of the early redemption amount in respect of each calculation amount.

If, on a specified autocall valuation date (*t*), Relevant Autocall Performance is greater than or equal to the Autocall Barrier, the Notes shall be redeemed early and the early redemption amount in respect of each calculation amount ("CA") shall be the calculation amount.

For the purposes of the above:

"Autocall Performance" means, in respect of [the/a] Reference Item and a specified autocall valuation date (*t*), the [level/price/rate/value] of such Reference Item on such specified autocall valuation date (*t*) DIVIDED BY the [average/highest/lowest⁷] [initial price/level/price/rate/value] of such Reference Item [on the initial valuation date[s]]/on any valuation period date during the initial valuation period⁸], expressed as a percentage

Early redemption

See "Taxation" and "Events of Default" in Element C.8 above for information on early redemption in relation to the Notes.

In addition, if the Issuer determines that performance of its obligations under the Notes or that any arrangements made to hedge its obligations under the Notes has or will become illegal in whole or in part as a result of compliance with any applicable present or future law (an "**illegality**"), the Issuer may redeem the Notes early and, if and to the extent permitted by applicable law, will pay an amount equal to the early redemption amount in respect of each calculation amount.

[In the circumstances specified above, the "early redemption amount" payable on any such early redemption of the Notes will be [[●] per calculation amount] [an amount determined by the Calculation Agent which represents the fair market value of each calculation amount of the Notes [(which amount shall include amounts in respect of interest)] on a day selected by the Issuer (in the case of an early redemption following an illegality, ignoring the relevant illegality), but adjusted (except in the case of an early redemption following an event of default) to account for losses, expenses and costs to the Issuer and/or its affiliates of unwinding any hedging and funding arrangements in respect of the Notes, provided that, for the purposes of determining the fair market value of each calculation amount of the Notes following an event of default, no account shall be taken of the financial condition of the Issuer which shall be presumed to be able to perform fully its obligations in respect of the Notes].]

[Zero Coupon Notes: In the circumstances specified above, the "early redemption amount" payable on any such early redemption in respect of each calculation amount will be sum of (i) [●] (the "Reference Price") and (ii) the product of the [●] per cent. per annum (compounded annually) being applied to the Reference Price from (and including) the issue date to (but excluding) the date fixed for

[Tranched Portfolio CLNs: For the purposes of the above, "Tranched Calculation Amount" means, in respect of a day, an amount determined by reference to the following formula:

$$[CA \times (100\% - Aggregate Portfolio Loss)] - TUC$$

where "Aggregate Portfolio Loss" is determined as of the relevant day and is as set out in Element C.18 below provided that where any Final Price is not determined as of the relevant date such Final Price will be deemed to be zero and provided further that "TUC" will be determined as if the Notes were being redeemed as of the relevant day. Where any Final Price is deemed to be zero, the Calculation Agent will calculate the shortfall (if any) in any amount(s) of interest paid prior to such Final Price being determined on the basis of the amount of interest which would have been payable had the relevant Final Price been determined as of the related Credit Event Determination Date. The Issuer will pay in respect of such Note and each such Final Price for which the relevant shortfall has been calculated, the relevant shortfall(s) relating to that Note on the next following Interest Payment Date or, if none, the Credit Event Redemption Date but without any additional interest or other amount in respect of the relevant delay(s).

[Nth-to-Default CLNs – The credit event determination date will be deemed to have occurred only as of the day on which the calculation agent determines that a credit event determination date has occurred in respect of [specify number] of Reference Entities.]

"Relevant TOM Performance" means, in respect of a TOM Period (t), [the RI TOM Performance of the Reference Item/the sum of the weighted RI TOM Performances for each of the Reference Items] for such TOM Period (t)

"Relevant Principal Amount" ("RPA") means the CA multiplied by [●]% multiplied by PFX

"RI TOM Performance" means, in respect of [the/a] Reference Item and a TOM Period (t), the [level/price/rate/value] of such Reference Item on the final valuation date for such TOM Period DIVIDED BY the [initial price/level/price/rate/value] of such Reference Item on the initial valuation date for such TOM Period, expressed as a percentage

"**TOM Period**" means[, in respect of each specified mid date,] each period (*t*) from (and including) the initial valuation date to (and including) the final valuation date for such mid date specified in the Table below:

Redemption Amount" determined by reference to the following formula:

$$CA \times \left[1 + \sum_{j=1} GRCV\right]$$

For the purposes of the above:

"General Redemption Component Value" or "GRCV" means, in respect of a General Redemption Component, a percentage calculated by the Calculation Agent by reference to the following:⁷⁷

(i) if Relevant Performance is greater than or equal to a Starting Performance Interval Point AND less than the following Ending Performance Interval Point, an amount determined by reference to the following formula:

PR_m x Relevant Performance + Digital Level_m

(ii) otherwise, if Relevant Performance is (x) less than the lowest specified Performance Interval Point or (y) greater than or equal to the highest specified Performance Interval Point, an amount determined by reference to the following formula determined in relation to the Performance Interval with the lowest Performance Interval Number (in the case of (x)) or the Performance Interval with the highest Performance Interval Number (in the case of (y)):

PR_m x Relevant Performance + Digital Level_m

Where:

"Performance" means[, in respect of [the/a] Reference Item comprising [the relevant] General Redemption Component [●] and the specified final [[averaging/valuation] date[s]/valuation period], (i) the [average/highest/lowest] [level/price/rate/value] of such Reference Item [on such specified final [averaging/valuation] date[s]/on any valuation period date during such final valuation period] DIVIDED BY [[●], being] the [average/highest/lowest] [initial price/level/price/rate/value] of such Reference Item [on the initial [averaging/valuation] date[s]/on any valuation period date during the initial valuation period] MINUS (ii) 1, all expressed as a percentage] [repeat for each General Redemption Component, as applicable]

[Inflation-Linked Notes: Adjustments

The terms and conditions of the Notes contain provisions, as applicable, relating to events affecting the Reference Item, modification or cessation of the Reference Item and provisions relating to subsequent corrections of the level of the Reference Item and details of the consequences of such events. Such provisions may permit the Issuer either to require the calculation agent to determine a substitute level for the Reference Item by reference to the terms of a reference bond or by reference to the most recently published level of the Reference Item or to cancel the Notes and to pay an amount equal to the early redemption amounts as specified above.]

[Reference Item-Linked Notes which are Index-Linked Notes, Equity-Linked Notes, Fund-Linked Notes, Currency-Linked Notes or Commodity-Linked Notes: **Disrupted Days, Market Disruption Events and Adjustments**

The terms and conditions of the Notes contain provisions, as applicable, relating to events affecting the Reference Item(s), modification or cessation of the Reference Item(s) and market disruption provisions and provisions relating to subsequent corrections of the level of the Reference Item(s) and details of the consequences of such events. Such provisions may permit the Issuer either to require the calculation agent to determine what adjustments should be made following the occurrence of the relevant event (which may include deferment of any required valuation or payment or the substitution of a substitute reference item) or to cancel the Notes and to pay an amount equal to the early redemption amount as specified above.]

[Redemption following the occurrence of a Credit Event

Section D- Risks

Element	Title		
D.2	Key risks specific to the Issuer	In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in the Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include:	
		 the Group is exposed to a number of risks, the categories of which are creatisk, market risk, liquidity risk, operational risk, litigation and regulater risk, insurance risk, pension risk and business risk; regulatory changes could materially affect the Issuer's business; 	
		the Issuer faces increased capital and liquidity requirements as a result of the Basel III Framework;	
		the implementation of a bank recovery and resolution directive or the taking any action under it could materially affect the value of any Notes;	
		the Group may have to pay additional amounts under deposit guarantee schemes or resolution funds; and	
		the Group may be affected by general economic and geopolitical conditions.	

D.[3/6] (D.3 applicable for Annexes V and XIII) (D.6 applicable for Annex XII)	Key information on key risks specific to the Notes	The Issuer believes that the factors summarised below represent the principal risks inherent in investing in the Notes, but the Issuer may be unable to pay amounts on or in connection with any Notes for other reasons which may not be considered significant risks by the Issuer based on information currently available to it and which it may not currently be able to anticipate.
		[Notes may involve a high degree of risk. There are certain factors which are material for the purpose of assessing the market risks associated with investing in the Notes, which include, without limitation, the following: an active secondary market in respect of the Notes may never be established or may illiquid

and this would adversely affect the value at which an investor could sell its Notes, if an investor holds Notes which are not denominated in the investor's home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding and the imposition of exchange controls could result in an investor not receiving payment on those Notes, the market value of the Notes will be affected by a number of factors independent of the creditworthiness of the Issuer, credit ratings assigned to the Issuer may not reflect all the risks associated with an investment in the Notes, the Notes may not be a suitable investment for all investors, [because the global Notes are held by or on behalf of Euroclear Bank S.A./N.V. and Clearstream Banking S.A., investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer/because the VP Systems Notes are dematerialised securities, investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer,] [investors who purchase Notes in denominations that are not an integral multiple of the Specified Denomination may be adversely affected if definitive Notes are subsequently required to be issued,] the recognition as eligible collateral for the Eurosystem and intra-day credit operations by the Eurosystem of New Global Notes is dependent upon satisfaction of the Eurosystem eligibility criteria at the relevant time, [there is no taxation gross-up in respect of the Notes, taxes and expenses may be payable by holders in connection with the Notes, there may be withholding under the EU Savings Directive, U.S. Foreign Account Tax Compliance Act withholding may affect payments on the Notes, the Hiring Incentives to Restore Employment Act withholding may affect payments on the Notes, the proposed financial transactions tax may apply in respect of certain dealings in Notes, the Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors, the value of the Notes could be adversely affected by a change in applicable laws or administrative practice, the Issuer has issued covered bonds and if any relevant claims in respect of these covered bonds are not met out of the pool of assets or the proceeds arising from it, any remaining claims will subsequently rank pari passu with the Issuer's obligations under the Notes.

In addition, there are certain factors which are material for the purpose of assessing the risks relating to the structure of the Notes, which include, without limitation, the following: [as the Issuer has the right to redeem the Notes at its option, this may limit the market value of the Notes and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return [and] [if the Issuer's obligations under the Notes become illegal, the Issuer may redeem the Notes] [and] [the value of Fixed Rate Notes may be affected by movements in market interest rates] [and] [investors in Capped Floating Rate Notes will not benefit from increases in reference rates which would apply to Variable Rate Notes with no cap] [and] [Variable Rate Notes may be volatile investments] [and] [where a Rate of Interest is determined in conjunction with a multiplier or other leverage factor, the effect of changes will be enhanced] [and] [interest is accumulated during the term of the Notes and is only paid on or about the Maturity Date] [and] [Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates]

[There are certain additional risks associated with Notes linked to the Reference Item[s]: prospective investors in the Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of the Notes in

		light of their particular financial circumstances, the information set forth in the Base Prospectus and the information regarding the Notes and the Reference Item[s] to which [the value of, or payments in respect of,] the Notes relate. Fluctuations in the value and/or volatility of [the Reference Item[s]/obligations issued or guaranteed by the Reference Entity] may affect the value of the Notes. Investors may risk losing their entire investment. Investors will have no claim against any Reference Item. Hedging arrangements of the Issuer may affect the value of the Notes and there may be conflicts of interest in respect of the Notes. [Market disruptions or other adjustment events may occur in respect of the Reference Item[s] which may result in valuations and/or payments being delayed, the Notes may be subject to adjustment (including, without limitation, that the relevant Reference Item may be substituted) or the Notes may be redeemed early.] The Notes will represent an investment linked to [the performance of] the Reference Item[s] and prospective investors should note that the return (if any) on their investment in the Notes will depend upon [the performance of] the
		Reference Item[s].] [There are certain additional risks associated with Credit-Linked Notes: prospective investors in the Notes should understand the risks of transactions involving the Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of the Notes in light of their particular financial circumstances, the information set forth in the Base Prospectus and the information regarding the Notes and the Reference Entit[y][ies] to which the value of and payments in respect of the Notes relate. Fluctuations in the value and/or volatility of obligations issued or guaranteed by a Reference Entity may affect the value of the Notes and the occurrence of a Credit Event in respect of a Reference Entity will reduce the amount of interest and principal payable and may alter the timing of redemption. Investors may risk losing their entire investment. Investors will have no claim against any Reference Entity. Hedging arrangements of the Issuer may affect the value of the Notes and there may be conflicts of interest in respect of the Notes. The terms of the Notes may change by reference to market convention and as a result of determinations made by a relevant Credit Derivatives Determination Committee. A Reference Entity may be replaced due to events beyond the control of the Issuer. The risk associated with the Notes may increase as a result of changes to the Notes after the issue date.]
[D.6 (Applicable for Annex XII)	Risk Warning	THE AMOUNT PAID ON REDEMPTION OF THE NOTES MAY BE LESS THAN THE PRINCIPAL AMOUNT OF THE NOTES, TOGETHER WITH ANY [ACCRUED] INTEREST, AND MAY IN CERTAIN CIRCUMSTANCES BE ZERO. INVESTORS MAY LOSE THE VALUE OF THEIR ENTIRE INVESTMENT, OR PART OF IT, AS THE CASE MAY BE.]
