GENERAL INFORMATION

Paragraphs 6 and 7 of the “General Information” section on pages 276-277 of the Base Prospectus shall be deemed deleted and replaced with the following paragraphs, respectively:

- “6.
- (i) There has been no significant change in the financial position of the Issuer or of the Issuer and its Subsidiaries taken as a whole since 31 March 2019, the last day of the financial period in respect of which the most recent financial statements of the Issuer have been prepared; and
 - (ii) On 9 January 2019, an action was filed in New York by an alleged holder of the Issuer’s American Depositary Receipts, representing its ordinary shares, against the Issuer. The complaint seeks unspecified damages on behalf of a putative class of purchasers of the Issuer’s American Depositary Receipts between 9 January 2014 and 23 October 2018. The Issuer intends to defend itself against the claims. On 7 February 2019, the Issuer was again placed under formal investigation (“mise en examen”) by an investigating judge at the Tribunal de Grande Instance de Paris in connection with an investigation into suspicion of money laundering related to certain transactions in the terminated portfolio of non-resident customers of the Issuer’s branch in

Estonia in the period from 2007 to 2014. The investigation covers transactions amounting to around EUR 21.6 million. The Issuer has been ordered to post bail in the amount of EUR 10.8 million. On 3 March 2019, a class action lawsuit was filed against the Issuer in the City Court of Copenhagen. The Issuer has received an inquiry from the U.S. Securities and Exchange Commission which is also carrying out an investigation in relation to the Estonian case. Recent reports in the media have pointed to potential further legal actions being raised against the Issuer in connection with the Estonian case. On 14 March 2019, 169 separate cases were further initiated simultaneously in the City Court of Copenhagen concerning shareholder claims relating to the Estonian case with claims totalling approximately DKK 3.5 billion. These cases relate to alleged violations at the Issuer's branch in Estonia of the rules on prevention of money laundering and the alleged failure to timely inform the financial markets of such violation. The timing of completion of the lawsuits (pending or threatened) and the investigations and the outcomes are uncertain. The Issuer intends to defend itself against the claims. Save for such lawsuit and investigations, there has been no material adverse change in the prospects of the Issuer since 31 December 2018, the last day of the financial period in respect of which the most recently audited financial statements of the Issuer have been prepared.

7. Save as outlined in (i) the section "Legal Proceedings" on page D-13, (ii) the first, fourth, fifth, ninth, eleventh and twelfth bullets on page 13 of the Annual Report 2018, and (iii) the second, third, seventh (regarding lawsuit filed on 3 March 2019) and eighth paragraphs in the section "Estonia" on page 6 of the Interim report – first quarter 2019, there are no governmental, legal or arbitration proceedings against or affecting the Issuer or any of its Subsidiaries (and no such proceedings are pending or threatened of which the Issuer is aware) during a period covering at least the previous twelve months which have or may have in the recent past, individually or in the aggregate, significant effects on the profitability or the financial position of the Issuer or of the Issuer and its Subsidiaries taken as a whole."

Section D – Risks

Element	Title	
D.2	Key risks specific to the Issuer	<p>In purchasing Securities, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Securities. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Securities. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in the Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Securities. These factors include:</p> <ul style="list-style-type: none"> • the Group is exposed to a variety of risks, the most significant of which are credit risk, market risk, liquidity risk, operational risk, insurance risk, pension risk and business risk; • regulatory changes could materially affect the Issuer's business;

		<ul style="list-style-type: none"> • the Group operates in a legal and regulatory environment that exposes it to potentially significant litigation and regulatory risks; • the Issuer faces increased capital and liquidity requirements as a result of the framework implementing, among other things, the Basel Committee on Banking Supervision’s proposals imposing stricter capital and liquidity requirements upon banks in the European Union; • the Issuer may be subject to bail-in under the BRRD; • the Group will have to pay additional amounts under resolution funds and deposit guarantee schemes; and • the Group may be affected by general economic and geopolitical conditions.
<p>D.6</p>	<p>Key information on key risks specific to the Securities</p>	<p>Issues of Securities involve a high degree of risk, including the risk of their expiring worthless. Investors in Securities should be prepared to sustain a loss of all or part of their investment.</p> <p>There are also risks associated with specific types of Securities, and with the Securities and the markets generally, including:</p> <ul style="list-style-type: none"> • an active secondary market in respect of the Securities may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Securities; • if an investor holds Securities which are not denominated in the investor’s home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Securities could result in an investor not receiving payments on those Securities; • the market value of Securities will be influenced by factors separate to the creditworthiness of the Issuer; • credit ratings assigned to the Issuer or any of its debt or other securities may not reflect all the risks associated with an investment in Securities and may be lowered, withdrawn or not maintained; • the Issuer is exposed to changing methodology by rating agencies; and • the Securities may not be a suitable investment for all investors. <p>There are also risks related to the structure of a particular issue of Securities, general risks related to a particular issue of Securities and risks related to Securities generally, including:</p> <ul style="list-style-type: none"> • risks relating to Securities linked to Reference Items;

		<ul style="list-style-type: none"> • [Open Ended Securities do not have a pre-defined expiration date and the Securities will only be terminated and cash settlement amounts in respect of the Securities paid on a day determined at the discretion of the Issuer;] • payments of cash amounts in respect of [Index/Futures/Equity]-Linked Securities may be made at different times than expected; • [the terms of the Securities may be subject to adjustment or the Securities may be cancelled upon the occurrence of any additional disruption events;] • the Issuer may cancel Securities of a particular Series in the case of illegality in relation to its obligations under such Series of Securities; • [the value of a Security may be affected by a change in currency exchange rates;] • [the price of a [Turbo] Call Warrant or a [Turbo] Put Warrant will be influenced by changes in the value of the Reference Items(s) linked to such Security;] • [the price of a Certificate Up or a Certificate Down may be affected by changes in the value of the relevant Reference Item(s) linked to such Security;] • [the price of a Covered Call Certificate will follow changes in the value of the relevant Reference Item(s) linked to such Security until a certain level is reached;] • [the price of a Certificate Bull or a Certificate Bear will be affected by changes in the value of the relevant Reference Item linked to such Security;] • [the price of a Mini-Future Certificate Long or a Mini-Future Certificate Short will be affected by changes in the value of the relevant Reference Item linked to such Security;] • a Securityholder will not have any recourse under a Security to bring a claim against any Reference Item; • the Issuer and/or any of its affiliates may enter into hedging arrangements which may affect the market price, liquidity or value of the Securities; • there is a risk that conflicts of interest may arise between certain parties that may not be beneficial to a Securityholder; • there may be certain circumstances in which the market maker is unable to fulfil its obligations which may make it impossible for an investor to buy or sell the relevant Securities; • if the cash settlement amount is equal to or less than the minimum cash settlement amount, no cash settlement amount shall be paid;
