

PROSPECTUS SUPPLEMENT NO. 3 DATED 9 OCTOBER 2018
TO THE BASE PROSPECTUS DATED 18 JUNE 2018

EUR 5,000,000,000 WARRANT AND CERTIFICATE PROGRAMME

This Prospectus Supplement dated 9 October 2018 (the “**Prospectus Supplement**” or “**Prospectus Supplement No. 3**”) to the Base Prospectus dated 18 June 2018 (as supplemented by the Prospectus Supplement No. 1 dated 24 July 2018 and Prospectus Supplement No. 2 dated 3 October 2018, together with the Prospectus Supplement, the “**Base Prospectus**”) constitutes a supplement for the purposes of Article 16 of Directive 2003/71/EC, as amended (the “**Prospectus Directive**”) and is prepared in connection with the Warrant and Certificate Programme (the “**Programme**”) established by Danske Bank A/S (the “**Issuer**”). Terms defined in the Base Prospectus have the same meaning when used in this Prospectus Supplement.

This Prospectus Supplement has been approved by the Central Bank of Ireland as competent authority under the Prospectus Directive. The Central Bank of Ireland only approves this Prospectus Supplement as meeting the requirements imposed under Irish and European law pursuant to the Prospectus Directive.

The Issuer accepts responsibility for the information contained in this Prospectus Supplement. To the best of the knowledge of the Issuer (which has taken all reasonable care to ensure that such is the case) the information contained in this Prospectus Supplement is in accordance with the facts and does not omit anything likely to affect the import of such information.

AMENDMENT TO THE BASE PROSPECTUS

The last sentence of the first paragraph under “*The Group operates in a legal and regulatory environment that exposes it to potentially significant litigation and regulatory risks*” risk factor on page 26 shall be deleted and replaced with the following:

“The supervisory authorities conduct on-going inspections from time to time of the Group’s compliance with anti-money laundering legislation that has led to, and can potentially lead to further, supervisory actions. The timing of completion of the investigations by, and subsequent discussions with, the authorities is uncertain, as is the outcome. See below as well as “Recent Developments” on page 255.”

RECENT DEVELOPMENTS

In Company Announcement No. 57/2018 released on 1 October 2018, Danske Bank announced that it has appointed an interim CEO. In Company Announcement No. 59/2018 released on 4 October 2018, Danske Bank A/S announced that it has been ordered to reassess its solvency need and announced its decision to discontinue its Share buy-back programme for 2018. In a Press Release published on 4 October 2018, Danske Bank A/S confirmed that it is in dialogue with the

U.S. authorities regarding the Estonia case. Accordingly, the following sections are to be added to the bottom of page 256 in the Base Prospectus:

“Danske Bank appoints interim CEO

Effective 1 October 2018, Danske Bank’s Board of Directors has appointed Jesper Nielsen, Member of the Executive Board and Head of Banking DK, as interim CEO until a permanent CEO has been appointed to replace Thomas F. Borgen, who on 19 September 2018 (Company Announcement No. 55) informed the Board of his wish to resign. Thomas F. Borgen has been relieved of his duties.

Jesper Nielsen will continue to perform his duties as Head of Banking DK and is not a candidate for the permanent CEO position.

Order for Danske Bank to reassess its solvency need again

In its latest decision of 4 October 2018, the DFSA finds that, at the end of the second quarter of 2018, Danske Bank complied with the order to adjust its solvency need by a Pillar II add-on of DKK 5 billion. Considering the current developments, the DFSA finds, however, that Danske Bank’s compliance and reputational risks are higher than assumed in the DFSA’s decision of 3 May 2018. As a result, the DFSA has ordered Danske Bank to reassess the Bank’s and the Group’s solvency need in order to ensure adequate capital coverage of the increase in compliance and reputational risks.

The DFSA’s initial estimate is that the Bank, as an absolute minimum, should increase the Pillar II add-on to DKK 10 billion, or 1.3 per cent. of its total REA at the end of the second quarter of 2018. This would increase the Group’s solvency need from 11.2 per cent. to 11.9 per cent. at 30 June 2018. At the same time, the DFSA assesses that the Bank must fund this Pillar II add-on requirement through common equity tier 1 (CET1) capital.

Danske Bank has thus set a higher target for its CET1 capital ratio to be around 16 per cent. (previously 14-15 per cent.) and the target for its total capital ratio to be above 20 per cent. (previously above 19 per cent.). Danske Bank fully meets the revised capital targets already today, and the Board of Directors reassesses the targets on an ongoing basis.

In order to remain prudent and in view of the above, Danske Bank’s Board of Directors has decided to discontinue the present share buy-back programme as of 4 October 2018. The share buy-back for a total of DKK 10 billion, with a maximum of 85 million shares, was due to end by 1 February 2019. At the end of week 39, the programme had repurchased 33,029,000 own shares at a transaction value of approximately DKK 6.8 billion.

Danske Bank is in dialogue with the U.S. authorities regarding the Estonia case

Danske Bank has received requests for information from the U.S. Department of Justice (“DOJ”) in connection with a criminal investigation relating to the Bank’s Estonian branch conducted by the DOJ. Danske Bank is cooperating with the authorities. The timing of completion of the investigations by, and subsequent discussions with, the authorities is uncertain, as is the outcome.”

GENERAL INFORMATION

Paragraphs 6 and 7 of the “General Information” section on pages 276-277 of the Base Prospectus shall be deemed deleted and replaced with the following paragraphs, respectively:

“6. On 19 September 2018, the Board of Directors of the Issuer announced that it will donate DKK 1.5 billion to an independent foundation which will be set up to support initiatives aimed at combating international financial crime, including money laundering, also in Denmark and Estonia. The donation was expensed in the third quarter of 2018. On 4 October 2018, the DFSA ordered the Board of Directors and the Executive Board to reassess the Issuer’s and the Group’s solvency need in order to ensure an adequate internal capital coverage of the increase in compliance and reputational risks as a result of current developments. The DFSA initially estimated that a

Pillar II add-on should amount to at least an additional DKK 5 billion (over the amount assessed in May 2018), thus DKK 10 billion in total, or about 1.30 per cent. of the REA (risk exposure amount) at the end of the second quarter of 2018.

- (i) Save as outlined immediately above, there has been no significant change in the financial position of the Issuer or of the Issuer and its Subsidiaries taken as a whole since 30 June 2018, the last day of the financial period in respect of which the most recent financial statements of the Issuer have been prepared; and
- (ii) there has been no material adverse change in the prospects of the Issuer since 31 December 2017, the last day of the financial period in respect of which the most recently audited financial statements of the Issuer have been prepared.

7. In its decision of 3 May 2018, the DFSA stated that it would look into any new relevant information that may become known in the future regarding the AML case involving the Issuer's Estonian branch. Following publication of the findings of the Issuer's investigations relating to its Estonian branch, the DFSA announced that it has reopened the case due to the completion of the investigations. On 6 August 2018, the Danish Public Prosecutor for Serious Economic and International Crime announced that it had opened an investigation into the Issuer concerning transactions passing through the Issuer's Estonian branch to examine whether there are grounds for a penal case against the Issuer for breach of the Danish AML Act. On 4 October 2018, the Issuer confirmed that it has received requests for information from the DOJ in connection with a criminal investigation relating to the Issuer's Estonian branch conducted by the DOJ. The timing of completion of the investigations by, and subsequent discussions with, the authorities is uncertain, as is the outcome.

Save as outlined immediately above, there are no governmental, legal or arbitration proceedings against or affecting the Issuer or any of its Subsidiaries (and no such proceedings are pending or threatened of which the Issuer is aware) during a period covering at least the previous twelve months which have or may have in the recent past, individually or in the aggregate, significant effects on the profitability or the financial position of the Issuer or of the Issuer and its Subsidiaries taken as a whole.”

In this case a short description of the Element should be included in the summary explaining why it is not applicable.

Section D – Risks

Element	Title	
D.2	Key risks specific to the Issuer	<p>In purchasing Securities, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Securities. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Securities. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in the Base Prospectus a number of factors which</p>

		<p>could materially adversely affect its business and ability to make payments due under the Securities. These factors include:</p> <ul style="list-style-type: none"> • the Group is exposed to a variety of risks, the most significant of which are credit risk, market risk, liquidity risk, operational risk, insurance risk, pension risk and business risk; • regulatory changes could materially affect the Issuer's business; • the Group operates in a legal and regulatory environment that exposes it to potentially significant litigation and regulatory risks; • the Issuer faces increased capital and liquidity requirements as a result of the framework implementing, among other things, the Basel Committee on Banking Supervision's proposals imposing stricter capital and liquidity requirements upon banks in the European Union; • the Issuer may be subject to bail-in under the BRRD; • the Group will have to pay additional amounts under resolution funds and deposit guarantee schemes; and • the Group may be affected by general economic and geopolitical conditions.

In addition, the imposition of exchange controls in relation to any Securities could result in an investor not receiving payments on those Securities; • the market value of Securities will be influenced by factors separate to the creditworthiness of the Issuer; • credit ratings assigned to the Issuer or any of its debt or other securities may not reflect all the risks associated with an investment in Securities and may be lowered, withdrawn or not maintained; • the Issuer is exposed to changing methodology by rating agencies; and
